Risks to this outlook remain tilted to the downside. This edition of *Global Economic Prospects* includes two Special Features that analyze the policy challenges raised by the two transitions in developing countries: the risks associated with the first U.S. central bank interest rate increase since 2006 and the implications of persistently low commodity prices for low income countries. *Global Economic Prospects* is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on developing countries on a semiannual basis in January and June. The January edition includes in depth analyses of topical policy challenges faced by developing countries while the June edition contains shorter analytical pieces.

Economic and fiscal outlook Office for Budget Responsibility, 2010-11-29 The Office for Budget Responsibility was established to provide independent and authoritative analysis of the UK's public finances Part of this role includes producing the official economic and fiscal forecasts This report sets out forecasts for the period to 2015/16 The report also assesses whether the Government is on course to meet the medium term fiscal objectives and presents preliminary observations on the long run sustainability of the public finances Since the June forecast the UK economy has recovered more strongly than initially expected The GDP growth was greater than expected in both the 2nd and 3rd quarters but that unemployment levels have risen to levels that the June forecast did not anticipate until the middle of 2012 In general the world economy has also grown more strongly CPI inflation has remained slightly higher than expected in June whilst public finances have performed as forecast The interest rates on UK debt are lower than in June The OBR forecasts that the economy will continue to recover from the recession but at a slower pace than the recoveries of the 1970s 1980s and 1990s The publication is divided into 5 chapters with two annexes

Office for Budget Responsibility Office for Budget Responsibility, 2011-11-29 This economic and fiscal outlook sets out the Office for Budget Responsibility OBR forecast for the period to 2016/17 The economy has grown less strongly than forecast in March primarily because higher than expected inflation has squeezed household incomes and consumer spending The eurozone crisis has impacted on business and consumer confidence Consequently the OBR has revised its growth forecasts downwards It expects the underlying momentum of the economy to pick up through 2012 but with the headline measure of GDP broadly flat until the second half The central forecast is now for 0.7 per cent growth in GDP in 2010/11 2.1 per cent in 2011/12 2.7 per cent in 2012/13 2.7 per cent in 2013/14 and 3 per cent in 2014/15 and 2015/16 Public sector net borrowing PSNB is expected to total 127 this year 8.4 per cent of GDP but the downward revision of growth forecasts means the deficit will shrink less quickly over the next five years with a forecast 53 billion PSNB 2.9 per cent of GDP in 2015/16 Unemployment is expected to rise further to 8.7 per cent in 2012 before falling back to 6.2 per cent by 2016 The OBR estimates that the Government has a roughly 60 per cent of meeting its mandate to balance the structural or cyclically adjusted current budget by 2016/17 The central economic

and fiscal forecasts assume that the euro area finds a way through its current crisis but a more disorderly outcome is clearly a significant risk

Belize International Monetary Fund, 2011-01-14 The economy of Belize in recent years has been vulnerable to adverse shocks owing to its weak external position policy rigidities and reduced access to external financing Executive Directors commended the authorities for their prudent macroeconomic management during the crisis Directors emphasized the need for fiscal consolidation strategy and stressed the need to strengthen the banking system They supported plans to improve public financial management and tax administration They welcomed monetary policy framework liquidity management and development plan policies and offered expert assistance as well
