Boundary Element Techniques C. A. Brebbia, J. C. F. Telles, L. C. Wrobel, 2012-12-06 VI SOCRATES I think that we ought to stress that we will write only about things that we have first hand experience in in a coherent way that will be useful to engineers and other scientists and stressing the formulation without being too mathematical We should write with integrity and honesty giving reference to other authors where reference is due but avoiding mentioning everybody just to be certain that our book is widely advertised Above all the book should be clear and useful PLATO I think we should include a good discussion of fundamental ideas of how integral equations are formed pointing out that they are like two dimensional shadows of three dimensional objects SOCRATES Stop there Remember you are not the Plato PLATO Sorry I was carried away ARISTOTLE I think that the book should have many applications so that the reader can learn by looking at them how to use the method SOCRATES I agree But we should be careful It is easy to include many illustrations and examples in a book in order to disguise its meagre contents All examples should be relevant ARISTOTLE And we should also include a full computer program to give the reader if so he
