small block or 396 big block which had to compete with the Mustang Cobra Jets and Mopar Wedge and Hemi cars In response building the big block Camaro through the COPO program was devised At the factory Camaros were fitted with the 396 engines and shipped to dealers where the 427s were installed in the cars From 1967 to 1969 the factory and dealers installed eight different 427 engines including the all aluminum ZL1 427 Later on others used the road map to build COPO Novas and Chevelles to similar spec with similar results The COPO performance car program did not end with these muscle cars Yenko even ordered several hundred Vegas through the COPO program so they could be fitted with turbochargers and raced in SCCA competition Chevy muscle car aficionado and author Matt Avery retraces the history of the COPO program and the creation of these premier muscle cars He has scoured archives and tracked down owners and personnel involved in the program to deliver a comprehensive story and complete guide to the COPO cars The COPO muscle car and racing program produced a storied and remarkable journey and author Matt Avery captures all these facets in this entertaining and revealing history p p1 margin 0 0px 0 0px 0 0px 0 0px font 12 0px Arial
