Manufacturing Management Paul M. Swamidass,2006-09-21 The Encyclopedia of Production and Manufacturing
Management is an encyclopedia that has been developed to serve this field as the fundamental reference work Over the past
twenty years the field of production and operations management has grown more rapidly than ever and consequently its
boundaries have been stretched in all directions For example in the last two decades production and manufacturing
management absorbed in rapid succession several new production management concepts manufacturing strategy focused
factory just in time manufacturing concurrent engineering total quality management supply chain management flexible
manufacturing systems lean production and mass customization to name a few This explosive growth makes the need for this
volume abundantly clear The manufacturing industry thinks and acts more broadly than it did several decades ago The most
notable change has been the need for manufacturing managers to think in technological strategic and competitive terms This
is a very favorable development and it leads to manufacturing success The entries in this encyclopedia include the most
recent technical and strategic innovations in production and manufacturing management The encyclopedia consists of
articles of varying lengths The longer articles on important concepts and practices range from five to fifteen pages There are
about 100 such articles written by nearly 100 authors from around the world In addition there are over 1000 shorter entries
on concepts practices and principles The range of topics and depth of coverage is intended to suit both student and
professional audiences The shorter entries provide digests of unfamiliar and complicated subjects Difficult subjects are made
intelligible to the reader without oversimplification The strategic and technological perspectives on various topics give this
Encyclopedia its distinctiveness and uniqueness The world of manufacturing today is increasingly competitive It is apparent
that manufacturers must respond to these competitive pressures with technical and strategic innovation This encyclopedia
has been developed to help researchers students and those in the manufacturing industry to understand and implement these
ongoing changes in the field **The AAA Autograph 1996** American Automobile Association,1995-12 Autocar ,2001
