appeared people of the world thought they knew the meaning of true terror After all they had seen thousands of years of war starvation illness and other forms of tragedy Yet the emergence of the Angel Virus brought about a deeper level of sorrow and a fiercer degree of trauma than any living person had dreamed existed On the day the Virus came all over the world children suddenly began to die The virus inflicted great grief on humanity but humanity would not have time to mourn A war between good and evil was soon to heat up The Angel Virus is only the beginning of a battle that carries much more than earthly implications This is a divine confrontation in a world buckled by despair where the laughter of children has been silenced forever *The Routledge Anthology of Global Science Fiction Origins* Bill Gillard, 2025-11-28 The Routledge

Anthology of Global Science Fiction Origins brings together short stories from writers of science fiction from all over the world who were at the vanguard of the genre from 1872 1942 Beginning with a dynamic and engaging introduction Bill Gillard provides accessible introductions to each text to offer key insights into the historical and cultural conditions that led to their publication The collection features work from a wide range of authors many for the first time in English translation including less familiar voices from the early days of the emergent tradition and invites an exciting recontextualization of the more well known texts Authors include Karel apek Xu Nianci Franz Kafka Adela Zamudio Leopoldo Lugones Juza Unno Tawfiq al Hakim and others The first anthology focused on global science fiction during this pivotal era and this collection offers vital new perspectives on the field by featuring the forerunners of science fiction It is an invaluable resource for students and teachers of both science fiction and world literature *Dangerous Visions and New Worlds* Andrew Nette, Iain

McIntyre, 2021-10-26 Much has been written about the long Sixties the era of the late 1950s through the early 1970s It was a period of major social change most graphically illustrated by the emergence of liberatory and resistance movements focused on inequalities of class race gender sexuality and beyond whose challenge represented a major shock to the political and social status quo With its focus on speculation alternate worlds and the future science fiction became an ideal vessel for this upsurge of radical protest *Dangerous Visions and New Worlds Radical Science Fiction 1950 to 1985* details celebrates and evaluates how science fiction novels and authors depicted interacted with and were inspired by these cultural and political movements in America and Great Britain It starts with progressive authors who rose to prominence in the conservative 1950s

challenging the so called Golden Age of science fiction and its linear narratives of technological breakthroughs and space conquering male heroes The book then moves through the 1960s when writers including those in what has been termed the New Wave shattered existing writing conventions and incorporated contemporary themes such as modern mass media culture corporate control growing state surveillance the Vietnam War and rising currents of counterculture ecological awareness feminism sexual liberation and Black Power The 1970s when the genre reflected the end of various dreams of the long Sixties and the faltering of the postwar boom is also explored along with the first half of the 1980s which gave rise to new subgenres such as cyberpunk Dangerous Visions and New Worlds contains over twenty chapters written by contemporary authors and critics and hundreds of full color cover images including thirteen thematically organised cover selections New perspectives on key novels and authors such as Octavia Butler Ursula K Le Guin Philip K Dick John Wyndham Samuel Delany J G Ballard John Brunner Judith Merrill Barry Malzberg Joanna Russ and many others are presented alongside excavations of topics works and writers who have been largely forgotten or undeservedly ignored **WLA**,2001 Angel in the Shadows Walter Lucius,2018-04-19 Ambitious intricate riveting The Times _____ Farah Hafez raised her head and stared into the camcorder s reflective black hole Now say what I want you to say And do it convincingly You can save this girl s life That s when the words came Unexpected and forceful Like vomit I Farah Hafez support the jihad against President Potanin s criminal regime He smiled coldly and pulled the trigger anyway After investigating what appeared to be a simple hit and run journalist Farah Hafez became caught up in a web of crime and corruption that led to her kidnap Detained in Russia she was forced to pledge her allegiance to a terrorist group on camera Now sought by international security and members of the criminal class alike Farah flees to Jakarta to continue her investigation while her friends and allies attempt to clear her name from across the globe If Farah is ever going to regain her freedom she needs to discover the root of the evil that bought her here The problem is that discovering this might cost her her life _____ Disturbing apocalyptic gripping Dutch Daily De Limburger Riveting until the very end AD Weekend Dutch Newspaper The Dutch answer to the tsunami of Scandinavian thrillers BB Boekblad **Philip Pullman and the Historical Imagination** Kristen Poole,2025-03-15 Philip Pullman and the Historical Imagination takes the general reader on a fascinating tour of seventeenth century thought exploring how this time period shaped Pullman s extraordinary trilogies His Dark Materials and The Book of Dust In Part One readers are taken into the mysteries of Renaissance allegory and hieroglyphics tracing how the alethiometer and Lyra s way of reading the device emerged from these traditions Part Two enters the exciting and revolutionary world of seventeenth century science We see how the amber spyglass imitates Galileo s telescope how early modern fantasies of space travel led to ideas of multiple worlds how alchemy entered Lyra s later adventures in Oxford and Prague and how the concept of Dust shares in the physics and philosophies of early scientists like Margaret Cavendish Part Three invites readers into the thrilling epic poem Paradise Lost John Milton s dramatic account of the creation of the world

following a violent war in Heaven that was Pullman's inspiration for *His Dark Materials*. Pullman's vibrant re-telling of this core story brings us rebel angels, recasts Satan as a brooding Lord Asriel, and presents Lyra as the new Eve. Written by an eminent scholar of seventeenth-century literature and history, Philip Pullman, and the *Historical Imagination* is crafted in an engaging and accessible style aimed at popular readers and fans of Pullman's work. It enlivens a historical period that has long attracted Pullman himself, bringing to life intriguing figures and the richly complex ideas of the time. This book is an exploration of history through the worlds and characters Pullman has invented. Ultimately, it not only reveals how seventeenth-century history helps readers better understand Pullman's novels but shows how reading history through the lens of Pullman's imagination offers new ways of thinking about the past.

The Tomb of Agamemnon Cathy Gere, 2012-03-01. Read the Bldg Blog interview with Mary Beard about the *Wonders of the World* series. Part I and Part II. Mycenae, the fabled city of Homer's King Agamemnon, still stands in a remote corner of mainland Greece. Revered in antiquity as the pagan world's most tangible connection to the heroes of the Trojan War, Mycenae leapt into the headlines in the late nineteenth century when Heinrich Schliemann announced that he had opened the Tomb of Agamemnon and found the body of the hero smothered in gold treasure. Now Mycenae is one of the most haunting and impressive archaeological sites in Europe, visited by hundreds of thousands of tourists every year. From Homer to Hitler, from Thucydides to Freud, Mycenae has occupied a singular place in the western imagination. As the backdrop to one of the most famous military campaigns of all time, Agamemnon's city has served for generation after generation as a symbol of the human appetite for war. As an archaeological site, it has given its name to the splendors of one of Europe's earliest civilizations, the Mycenaean Age. In this book, historian of science Cathy Gere tells the story of these extraordinary ruins from the Cult of the Hero that sprung up in the shadow of the great burned walls in the eighth century BC to the time after Schliemann's excavations when the Homeric warriors were resurrected to play their part in the political tragedies of the twentieth century.

Neoliberalism and Young Adult Fiction Sean P. Connors, Roberta Seelinger Trites, 2025-03-17. In the

twenty first century the influence of neoliberalism the belief that society benefits when both individuals and corporations are free to maximize their talents in the service of responding to social needs and problems resonates through all domains of human life And yet little critical study has been given to the reproduction of a neoliberal social order in YA literature

Neoliberalism and Young Adult Fiction Exceptionalism Exploitation and Erasure examines how some YA literature naturalizes neoliberalism in positioning teenagers as self enclosed competitive individuals At the same time however the authors also examine other YA novels as potential sites of resistance that acknowledge teenagers agency to reject neoliberalism s destructive impulses and to work for social justice and equality through collective action With that in mind the authors of Neoliberalism and Young Adult Fiction analyze such concepts as how the exceptionality of specific characters who embody neoliberal ideals leads to self enclosed individualism and how environmental exploitation and consumerism lead to destructive effects The book progresses to an in depth examination of how racism undergirds US neoliberalism and environmental exploitation From scrutinizing racism and the rejection of neoliberalism inherent in the antiracism movement the study turns to an examination of gender specifically focusing on the relationship between sexism exploitation and embodied rejections of patriarchal thinking Indeed erasure is implicated in racism sexism and all forms of discrimination that are borne of exploitation Finally youth activism with its rejection of neoliberal ideologies leads to a culminating chapter about how global youth link YA literature to their protest movements
