

Animal rights

(opinion essay)

Some people believe that animals should be treated in the same way humans are and have similar rights, whereas others think that it is more important to use them as we desire, for food and medical research.

In my opinion, animal cruelty is an undeniable evil case, because like humans, animals need freedom too. Abusing animals means choosing to hurt them for no reason.

To begin with, people believe that the exploitation of animals is acceptable for several reasons. Firstly, they think that humans are the most important beings on the planet and everything must be done to ensure human survival. For instance, if a person beats an animal so badly that the animal happens to die nobody takes steps further so that someone is made responsible as people act when people are to suffer.

Secondly, it has been shown on numerous occasions by secret filming in laboratories, made by animal rights groups that animals feel as much pain as humans do, and they suffer when they are kept in cages for long periods. In addition, a substantial amount of animal research is done for cosmetics, to find cures for diseases, so this is unnecessary.

Thirdly, it has also been proved that humans can get all the nutrients and vitamins that they need from green vegetables and fruits. Therefore, again, having to kill animals for food is not an adequate argument.

To sum up, although some people argue killing animals for research and food is ethical, I would say there is sufficient evidence to demonstrate that this is not the case, and, therefore, steps must be taken to improve the rights of animals.

Purpose In Writing Evelyn Saxon, AI, 2025-05-05 *Purpose In Writing* explores the deliberate construction of essays emphasizing how skilled writers use structure and tone to achieve specific communication goals The book examines how the strategic arrangement of ideas or structural architecture and the writer's attitude or tonal nuance work together to shape the reader's experience This approach moves beyond simply conveying information highlighting the writer's active role in creating meaning and shaping perspective The book progresses from establishing a theoretical foundation by examining the historical evolution of the essay form to dissecting the structural components of effective essays such as chronological or compare and contrast patterns It

culminates in an in depth analysis of tone exploring how writers use language to evoke emotions and build credibility Through case studies and examples the book demonstrates how conscious choices in essay writing can amplify a writer s intention leaving a lasting impact on the audience What sets Purpose In Writing apart is its emphasis on the interplay between structure and tone as deliberate tools for achieving a specific purpose in essay writing Rather than treating them separately it highlights their synergistic relationship demonstrating how writers orchestrate both to maximize impact making it a valuable resource for students instructors and anyone interested in mastering the art of persuasive writing and effective communication
