Lectures on Metaphysics and Logic: Lectures on logic, volume 2 Sir William Hamilton, 1866 *THE SECOND VOLUME, CONTAINING The Parts of Middle APARTMENT OF MAN'S BODY (And Other ANIMALS), With Its DISEASES, CASES, and CURES* Samuel Collins, 1685 *Summa Theologiae, Prima Pars: Volume 3, Human Beings and God's Governance of Creation, QQ 75-119* Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23 This book is an introduction to three questions on love according to St Thomas Aquinas *Summa Theologiae* I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be

mostly limited to the footnotes making the body of the text accessible to more readers *The Expression of the Emotions in Man and Animals (Evolutionary Theory)* Charles Darwin, 2021-05-07 The Expression of the Emotions in Man and Animals is Charles Darwin's major work of evolutionary theory. The book concerns the biological aspects of emotional life and Darwin explores the animal origins of such human characteristics as the lifting of the eyebrows in moments of surprise and the mental confusion which typically accompanies blushing. Darwin's biological approach links emotions to their origins in animal behavior and allows cultural factors only an auxiliary role in the shaping of expression. This biological emphasis leads to a concentration on six emotional states: happiness, sadness, fear, anger, surprise, and disgust. It also leads to an appreciation of the universal nature of expression with its implication of a single origin for the entire human species, and Darwin points to the importance of emotional communication with children in their psychological development. **The Eternal Present,**

Volume II Sigfried Giedion, 2023-10-17 An original account of ancient Egyptian and Sumerian architecture from the acclaimed architectural historian. In *The Beginnings of Architecture* Sigfried Giedion examines the architecture of ancient Egypt and Sumer. These early builders expressed an attitude of immense force when they confronted their structures with open sky. Giedion argues that it was during these periods that the problem of constancy and change flared up with an intensity unknown in any other period of history and resolved eventually into the first architectural space conception: the automatic psychic recording of the visual environment. *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy* Volume II: *Anthropogenesis* Helena Petrovna Blavatsky, 2018-02-24 The last book in the monumental work of Theosophic thought. This book focuses on gaining occult power in the formation of the humanity and the earth. This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood, and this book reveals their secrets as to how knowledge to do this can be attained. It does not reveal what the ultimate saving knowledge is that can do this, but it gives guidelines on how to start the journey for yourself. **The Cambridge Translations of Medieval Philosophical Texts: Volume 1, Logic and the Philosophy of Language** Norman Kretzmann, Eleonore Stump, 1988 This volume is concerned with the logic and the philosophy of language and has a comprehensive index. *Bibliography of Islamic Philosophy, Volume 2* Hans Daiber, 2024-03-18 The print edition is available as a set of two volumes. 9789004113473
