2. Transactions (c) and (e) are not business transactions because a transfer of values has not resulted, nor can the event be considered financial in nature and capable of being expressed in terms of money.

  - (1) It tests the accuracy of the entries in that it proves that debits and credits of an equal amount are in the ledger.
  - (2) It provides a list of ledger accounts and their balances, which may be used in preparing the financial statements and in supplying financial data about the concern.
