

# NEWTON'S LAWS OF MOTION

**Directions: Write the correct letter for each scenario. Write a short explanation for your choice of Newton's laws.**

| Scenario                       | Newton's Law                            | Explanation                                                                                                                                                           |
|--------------------------------|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A book resting on a table.     | A. First Law of Motion                  | An object remains at rest until acted upon by an outside force.                                                                                                       |
| Pushing a shopping cart.       | B. Second Law of Motion ( $F = ma$ )    | Force is related to the mass in the shopping cart and how fast it moves.                                                                                              |
| Walking on the ground.         | C. Third Law of Motion                  | Your foot pushes backward on the ground. The ground exerts an equal and opposite force forward, allowing you to move forward.                                         |
| A moving car coming to a stop. | A. First Law of Motion                  | Bodies in motion continue in motion (inertia) until acted upon by an external force.                                                                                  |
| Acceleration of a car.         | B. Second Law of Motion ( $a = F / m$ ) | The greater the force used, the faster the car accelerates. A heavier car will need more force.                                                                       |
| Throwing a ball.               | C. Third Law of Motion                  | When you throw a ball, your hand exerts a force on the ball in one direction, and the ball exerts an equal but opposite force on your hand in the opposite direction. |
