Learning Online Barbara Means, Marianne Bakia, Robert Murphy, 2014-04-03 At a time when more and more of what people learn both in formal courses and in everyday life is mediated by technology Learning Online provides a much needed guide to different forms and applications of online learning This book describes how online learning is being used in both K 12 and higher education settings as well as in learning outside of school Particular online learning technologies such as MOOCs massive open online courses multi player games learning analytics and adaptive online practice environments are described in terms of design principles implementation and contexts of use Learning Online synthesizes research findings on the effectiveness of different types of online learning but a major message of the book is that student outcomes arise from the joint influence of implementation context and learner characteristics interacting with technology not from technology alone The book describes available research about how best to implement different forms of online learning for specific kinds of students subject areas and contexts Building on available evidence regarding practices that make online and blended learning more effective in different contexts Learning Online draws implications for institutional and state policies that would promote judicious uses of online learning and effective implementation models This in depth research work concludes with a call for an online learning implementation research agenda combining education institutions and research partners in a collaborative effort to generate and share evidence on effective practices

Designing Effective Distance and Blended Learning Environments in K-12 Driscoll III, Thomas F., 2021-11-12 It has quickly become apparent in the past year that online learning is not only an asset but it is critical to the continued education of youth during times of crisis However districts and schools across the nation are in need of guidance and practical research backed approaches to distance and hybrid learning The current COVID 19 crisis has demonstrated that effective learning in K 12 is possible but many districts struggled and continue to struggle in achieving that reality There is also the growing consensus that even if things return to normal distance and blended learning strategies should continue to be employed in many ways across the K 12 environment Designing Effective Distance and Blended Learning Environments in K 12 provides key insights into the ways that school districts and educators from across the world have effectively designed and implemented distance and blended learning approaches to enable and enhance student learning The diverse collection of authors from various demographics and roles in school systems will benefit readers across a wide spectrum of school community stakeholders There will also be an emphasis

on how research and theory is put into practice along with an honest discussion of what strategies and actions were successful as well as those that were less so This book is essential for professionals and researchers working in the field of K 12 education particularly superintendents curriculum developers professional learning designers school principals instructional technology specialists and teachers as well as administrators researchers academicians and students interested in the effective practices being used in blended learning approaches

The Great American Education-Industrial Complex Anthony G. Picciano,Joel Spring,2013-05-07 The Great American Education Industrial Complex examines the structure and nature of national networks and enterprises that seek to influence public education policy in accord with their own goals and objectives In the past twenty years significant changes have taken place in the way various interest groups seek to influence policies and practices in public education in the United States No longer left to the experience and knowledge of educators American education has become as much the domain of private organizations corporate entities and political agents who see it as a market for their ideas technologies and ultimately profits Piccciano and Spring posit that educational technology is the vehicle whereby these separate movements organizations and individuals have become integrated in a powerful common entity and detail how the educational industrial complex has grown and strengthened its position of influence This timely carefully documented well argued book brings together Picciano s perspective and expertise in the field of technology and policy issues and Spring s in the history and politics of education in a unique critical analysis of the education industrial complex and its implications for the future
