Introduction to Biosocial Medicine Donald A. Barr, 2016-01-15 Understanding human behavior is essential if medical students and doctors are to provide more effective health care While 40 percent of premature deaths in the United States can be attributed to such dangerous behaviors as smoking overeating inactivity and drug or alcohol use medical education has generally failed to address how these behaviors are influenced by social forces This new textbook from Dr Donald A Barr was designed in response to the growing recognition that physicians need to understand the biosocial sciences behind human behavior in order to be effective practitioners Introduction to Biosocial Medicine explains

the determinants of human behavior and the overwhelming impact of behavior on health Drawing on both recent and historical research the book combines the study of the biology of humans with the social and psychological aspects of human behavior Dr Barr a sociologist as well as physician illustrates how the biology of neurons the intricacies of the human mind and the power of broad social forces all influence individual perceptions and responses Addressing the enormous potential of interventions from medical and public health professionals to alter these patterns of human behavior over time Introduction to Biosocial Medicine brings necessary depth and perspective to medical training and education

Grading for Impact
Tom Hierck, Garth Larson, 2018-04-04 Aim for a target based grading system and create stronger learning opportunities Do you wish there was more clarity when it comes to measuring student progress and learning What if there was a way to utilize grading and assessment to focus on learning rather than performance and the process rather than the product As grading assessment and reporting continue to be relevant topics of discussion this book helps you create a functional plan to elevate and advance standards based grading practices Teachers and administrators will learn how to assess grade and report against specific learning targets rather than standards as a whole to make skill acquisition the highest priority Grounded in application to provide focus and clarity this book features Real case studies of schools that have incorporated target based assessment feedback grading and reporting Practical examples to guide implementation Questions checklists illustrations and audits of practice to showcase the work in action An accessible format and layout that support both immediate implementation and long term goals Despite being a topic that generates emotion and resistance to change target based assessment builds the foundation for a learner centered system that provides clear expectations and feedback for teachers students and parents Grading for Impact is a simple and straightforward guide to re thinking grading based on mastery of specific skills and concepts rather than broadly written standards Real world examples of teachers struggling with and answering the old questions are included How do we grade fairly and accurately and How do we use grades as an instructional strategy Joseph Staub High School Teacher Downtown Magnets High School CA Most stakeholders agree that report cards aren't enough to show what our students are learning in school but changing the traditional grading system is a task that requires careful planning and challenging discussions Grading for Impact shows educators how to start and plan the discussions that will result in genuine learning experiences for students Ernie Rambo Virtual Learning Community Coordinator Nevada National Board Professional Learning Institute
