Solutions Manual [for] Microsoft Excel for Accounting Katherine T. Smith, L. Murphy Smith, Lawrence C. Smith, 2003

The Excel Answer Book Scott Falls, 2012-12-09 The fastest and easiest method to instantly manage data using Microsoft Excel Listen if you're anything like me you find it so frustrating not being able to provide answers immediately Having data that should be useful but just isn't because it's not organized with any logic Do you PULL YOUR HAIR OUT when you see co-workers using Excel like a glorified typewriter How about watching people key data into a spreadsheet manually I don't know about your organization but I've never worked anywhere where we could waste time like that How about seeing someone working in Excel moving at light speed accomplishing more in eleven minutes than you could accomplish all day Do you ever find yourself asking There has to be a better way You may have thought about attending a training class to learn Excel but these classes can be costly and if you're anything like me you hate wasting time sitting through a class to learn a computer program only to forget most of it the very next day right After sending some staff to a class we realized that we weren't getting the benefit we had hoped for the staff came back with some knowledge but not that real world experience that I needed them to have Since I was always the Go To guy for Excel questions the senior management team approached me about putting together an in-house training program I knew creating a course would mean more work for me but after giving it some serious consideration I realized if you want something done right you have to do it yourself So I agreed and was given the following criteria to develop the training It had to be To the

point! In plain English Have real world examples now I did need to cover the very basics but what I do is constantly build upon what I just taught until the lessons actually make sense in the real world Develop a comprehensive manual that the employees can use for immediate reference And with that I had my work cut out for me What I created over the past three years is the most streamlined fun and incredibly easy method to learn Excel This course focuses on Excel 2007 and the new Excel 2010 but the concepts still apply to the older versions Not only will you learn Excel but you ll start to see problems during a project at work or a labor intensive procedures that you perform monthly and you begin to think in the back of your mind There s has to be a better way Then little parts of the course will start jarring your memory and you ll begin to say to yourself Let s try X function or How about Y Pretty soon you ll start playing around with the course material and it will become a natural part of your workflow You ll start forcing Excel to work for YOU That s when YOU control YOUR destiny The tools become just that tools to help you get your work done as accurately and efficiently as possible Here in more specific order is what s included A complete step by step guide of the entire new Excel In depth descriptions and examples of 77 Excel functions GUARANTEED to help you solve the Real World problems on a daily basis Help you manage data so you can instantaneously spit out reports and analysis Imagine in the time it takes to snap your finger you could present whatever data in exactly the format it needs to be presented Refresh data in one click Automatically import data instead of typing anything Most data you will be using has already been created and is just waiting somewhere to be used either in an internal system or external system I explain EXACTLY how to go about getting it This is when you become the master of the tool rather than be mastered by the tool Most people NEVER master the tools at their disposal and many don t even try to properly utilize them Learn to find the holes in current processes and how patch them up QUICKLY When you can manage and give accurate data faster than anyone ever thought possible you will look like a superstar in your organization
