Answers In Genesis Science Curriculum:

Already Gone Ken Ham, Britt Beemer, 2009-05-01 Over 100 000 copies in print If you look around in your church today two thirds of the young people who are sitting among us have already left in their hearts soon they will be gone for good This is the alarming conclusion from a study Answers in Genesis commissioned from America's Research Group led by respected researcher Britt Beemer The results may unnerve you they may shake long held assumptions to the core but these results need to be taken seriously by the church Already Gone reveals Why America's churches have lost an entire generation of believers The views of 1 000 twenty somethings solidly raised in the church but no longer attending and their reasons why Relevant statistical data effectively teamed with powerful apologetics The study found that we are losing our kids in elementary middle school and high school rather than college and the Sunday school syndrome is contributing to the epidemic rather than helping alleviate it This is an alarming wake up call for the church showing how our programs and our approaches to Christian education are failing and our children are paying the price Though the statistics reveal a huge disconnect taking place between our children and their church experience Already Gone shows how to fight back for our families our churches and our world We can make a difference today that will affect the statistics of tomorrow in a positive and Christ focused way

American Creationism, Creation Science, and Intelligent Design in the Evangelical Market Benjamin L. Huskinson, 2020-08-19 In this compelling and thoroughly researched book Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism so too there is broad diversity among creationists His work on the Intelligent Design movement is superb and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism This is a very fine book Randall Balmer Author of *Evangelicalism in America* and writer host of *In the Beginning The Creationist Controversy* Benjamin Huskinson's study of American creationism will be an eye opener for those who sit on the opposite side of the evolution debate He shows that far from being a unified assault on Darwinism the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community Peter Bowler Author of *Monkey Trials and Gorilla Sermons Evolution and Christianity from Darwin to Intelligent Design* A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory Huskinson offers a smart analysis of religious anti evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate A must read for science communicators Philippa Levine Walter Prescott Webb Chair in History and Ideas University of Texas at Austin USA This book

explores the cultural history of anti evolution efforts in the United States from 1960 to the present refuting several popular narratives about creation science in evangelical America Separating theological terms like creationism from cultural movements such as creation science and intelligent design in an evangelical marketplace of ideas it contests assumptions that evangelical movements against evolution are homogeneous and it argues that intelligent design is not an off shoot of the creation science movement It demonstrates that the rationale of creationist groups is relational as well as ideological showing that the social function of American creationism which is to establish the boundaries of orthodox religion is key to understanding the competing strategies of creation science organisations

The Anointed Randall J. Stephens,Karl W. Giberson,2012-07-09 Why do so many evangelicals follow leaders with dubious credentials when they have other options in their own faith Exploring intellectual authority within evangelicalism the authors reveal how the concept of anointing being chosen by God to speak for him established a conservative evangelical leadership isolated from secular arts and sciences

Eyes of the Heart Russell Hach,2021-03-16 Growing up in a world shaped by science and technology young people may easily lose sight of God Or as this book shows their eyes of the heart can become opened like never before With wit and insight Russell Hach offers a model for unifying faith and science that does not compromise either good science or Christian convictions In Eyes of the Heart Seeing God in an Age of Science Hach puts this model to the acid test by showing how it resolves long standing and still heated issues of creation and evolution Compelling stories and clear explanations make this book appealing to a wide audience including parents youth workers and young people themselves The ideas are deep Hach covers a lot of ground from Einstein and Hawking to Augustine and Hildegard of Bingen But the book s arguments are easy to follow and its bite size chapters are enjoyable to read

[Creationism USA](#) Adam Laats,2020-10-05 Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution but that they do have significant disagreements about creationism Creationism USA both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them
