Technology, Crafting and Artisanal Networks in the Greek and Roman World Diego Elia,Eleni Hasaki,Marco Serino,2024-12-02 This volume aims to merge theoretical models with methodological approaches on ceramic technology and artisanal networks in the Classical world This convergence of analytical frameworks allowed scholars to explore some traditional archaeological topics that usually have a very low level of visibility such as the skillful gestures of the craftspeople involved the organization of the ceramic production the dynamics of apprenticeship and knowledge transfer as well as intra and inter regional artisanal mobility in the Graeco Roman communities of practice The papers promote interdisciplinary dialogues among various fields of study such as

archaeology archaeometry anthropology ethnoarchaeology experimental archaeology and digital humanities such as Social Network Analysis computational imaging and big data analysis *Project Management Control: Planning and Role of AI* Manish Kumar Sinha, Jamal Ahmed, 2025-05-17 *Project Management Control Planning and Role of AI* by Manish Kumar Sinha and Jamal Ahmed explores the evolving landscape of project management by integrating traditional control systems with cutting edge artificial intelligence With a strong foundation in concepts like risk management scheduling stakeholder coordination and cost control the book highlights how AI is revolutionizing project planning and execution Ideal for professionals in construction energy and engineering sectors it offers practical insights real world applications and futuristic strategies for effective and data driven project delivery **The Roman Peasant Project 2009-2014** Kim

Bowes, 2021-06-04 This book presents the results of the first systematic archaeological study of Roman peasants It examines the spaces architecture diet agriculture market interactions and movement habitus of non elite rural dwellers in a region of southern Tuscany Italy during the Roman period Volume 1 presents the excavation data from eight non elite rural sites including a farm a peasant house animal stall work huts a ceramics factory field drains and a site of uncertain function here framed as individual chapters complete with finds analysis Volume 2 examines this data synthetically in thematic chapters addressing land use agriculture diet markets and movement The results suggest a different more sophisticated Roman peasant than heretofore assumed The data suggests that Roman peasants particularly in the first century BC AD built specialized sites distributed throughout the landscape to maximize use of diverse land parcels This has important implications for the interpretation of field survey data the estimate of rural demographics from that survey and assumptions about the long term changes to human settlement It also points to an important moment of agricultural intensification in this period a contention beginning to be supported by other studies The project also identified sophisticated systems of land use including crop rotation and an important investment in animal agriculture This work presents the first systematic data from Roman Italy for rural consumption tracking the fine wares made at a production site to local sites nearby This supports the largely theoretical problematizing of the so called consumer city model and suggests the potential importance of rural aggregate demand Movement studies based on finds from the sites themselves describe a more mobile population than anticipated engaged in quotidian and long distance movement patterns supported by the small but steady stream of imports and exports into and out of this seemingly liminal region The book concludes by addressing the implications of this new data for major questions in Roman social and economic history The Economy of Roman Religion Andrew Wilson, Nick

Ray, Angela Trentacoste, 2023-06-07 This interdisciplinary edited volume presents twelve papers by Roman historians and archaeologists discussing the interconnected relationship between religion and the Roman economy over the period c 500 BC to AD 350 The connection between Roman religion and the economy has largely been ignored in work on the Roman economy but this volume explores the many complex ways in which economic and religious thinking and activities were

interwoven from individuals to institutions The broad geographic and chronological scope of the volume engages with a notable variety of evidence epigraphic archaeological historical papyrological and zooarchaeological In addition to providing case studies that draw from the rich archaeological documentary and epigraphic evidence the volume also explores the different and sometimes divergent pictures offered by these sources from discrepancies in the cost of religious buildings to the tensions between piety and ostentatious donation The edited collection thus bridges economic social and religious themes The volume provides a view of a society in which religion had a central role in economic activity on an institutional to individual scale The volume allows an evaluation of impact of that activity from both financial and social viewpoints providing a new perspective on Roman religion a perspective to which a wide range of archaeological and documentary evidence from animal bone to coins and building costs has contributed As a result this volume not only provides new information on the economy of Roman religion it also proposes new ways of looking at existing bodies of evidence **Ancient Greece and**

Rome Keith Hopwood,1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament s New Model Army from 1645 to1650 Although Fairfax emerged as England s most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax s relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally **The Pylos Regional Archaeological Project** John

Bennet,Jack L. Davis,2018-12-31 This volume represents the product of 25 years of study conducted by the Pylos Regional Archaeological Project a multidisciplinary diachronic archaeological expedition formally organized in 1990 to investigate the history of prehistoric and historic settlement in western Messenia in Greece An introduction setting the project in context and an extensive gazetteer of sites precede a collection of eight previously published articles which appeared in *Hesperia* the journal of the American School of Classical Studies at Athens between 1997 and 2010 Taken together these contributions document a comprehensive methodological approach by an archaeological project that was one of the first to incorporate new technologies such as digital mapping tools and online databases The results of such a long term and multifaceted research program illuminate the shifting relationships between humans their landscapes and historical forces both local and distant The Pylos Regional Archaeological Project A Retrospective provides an invaluable resource not only for those interested in the history and development of southwestern Greece but also for researchers interested in exploring the full range of methodological approaches to archaeological survey *Agricultural Labour and Lived Experience in Ancient*

Greece Maeve McHugh, 2025-12-05 This book explores the experience of labour for ancient Greek farming communities using historical archaeological bioarchaeological and ethnographic data It offers a compelling and methodologically innovative approach using the moral economy taskscape and embodiment as interpretative frames Reconstructing the lived experience of ancient farmers the book defines the physical conceptual and ideological contours of the farmer's world It highlights the complex embedded and entangled nature of Greek agrarian life and draws on a wide range of interdisciplinary evidence to create a cultural history of rural labour By moving beyond economic abstractions the study reframes agricultural labour as a meaningful social and bodily practice central to identity community and survival The book will be of particular interest to researchers and students of ancient history archaeology gender studies and rural studies It also appeals to readers interested in labour embodiment the moral economy and reconstructing antiquity through everyday experience **Archaic and**

Classical Greece Matthew Dillon, Christopher Matthew, Michael Schmitz, 2020-09-30 Essays examining the influence of gods oracles and omens in the wars of the Archaic and Classical Greek world Religion was integral to the conduct of war in the ancient world and the Greeks were certainly no exception No campaign was undertaken no battle risked without first making sacrifice to propitiate the appropriate gods such as Ares god of War or consulting oracles and omens to divine their plans Yet the link between war and religion is an area that has been regularly overlooked by modern scholars examining the conflicts of these times This volume addresses that omission by drawing together the work of experts from across the globe The chapters have been carefully structured by the editors so that this wide array of scholarship combines to give a coherent comprehensive study of the role of religion in the wars of the Archaic and Classical Greek world Aspects considered in depth will include Greek writers on religion and war declarations of war fate and predestination the sphagia and pre battle sacrifices omens oracles and portents trophies and dedications to cult centers militarized deities sacred truces and festivals oaths and vows religion Greek military medicine Praise for Religion Classical Warfare Archaic and Classical Greece Comprised of ten erudite and impressively informative articles by experts in the field of Greek antiquity A work of meticulous and detailed scholarship Religion Classical Warfare Archaic and Classical Greece must be considered as a core addition to community college and university library Antiquarian Greek History collections and supplemental curriculum studies lists
