Woods,Michael Woods,2011-01-01 Did you know People first used skis more than 8 000 years ago The first wheels were used in pottery not for transportation Traffic jams often clogged the streets of ancient Rome Transportation technology is as old as human society itself The first humans on Earth used simple transportation tools They bundled logs together to make rafts They used long poles and flat boards to carry heavy loads Over the centuries ancient peoples learned more about transportation The ancient Indians trained elephants and horses for travel The ancient Chinese developed the first compasses The ancient Greeks built massive battleships So what kinds of tools and techniques did ancient people use How did maps of the world improve over time And how did ancient transportation set the stage for our own modern transportation technology Learn more in Ancient Transportation Technology British and American News Maps in the Early Cold War Period, 1945-1955 Jeffrey P. Stone,2019-06-06 During the early years of the Cold War England and the United States both found themselves reassessing their relationship with their former ally the Soviet Union and the status of their own special relationship was far from certain As Jeffrey P Stone argues maps from British and American news journals from this period became a valuable tool for relating the new realities of the Cold War to millions of readers These maps were vehicles for political ideology revealing both obvious and subtle differences in how each country viewed global geopolitics at the onset of the Cold War Richly illustrated with news maps cartographic advertisements and cartoons from the era this book reveals the idiomatic political cultural and material differences contributing to these divergent cartographic visions of the Cold War world

A Historical Atlas of Lebanon Carolyn M. Skahill,2003-12-15 Maps text and timeline chronicle the history of Lebanon from 3000 B C to the present **Technology Application in Tourism in Asia** Azizul Hassan,2022-03-02 This book very specifically focuses on technology application in tourism in Asia The book contains twenty seven chapters in four sections i e theories innovations practices and future research directions based on the intriguing qualities and importance of technology applications in the Asian tourism business This book a blend of comprehensive and extensive efforts by the contributors and editor is designed to extensively cover technology applications in tourism in Asia including distinct topics such as mobile computing new product designs innovative technology usages in tourism promotion technology driven sustainable tourism development location based apps mobility accessibility the post crisis situation of COVID 19 etc This

book is a significant contribution towards the very limited knowledge of technology applications in tourism with selected examples of Asian countries. The importance of technology in Asian tourism is rapidly increasing and has led to a rise in luxury allowing citizens to enjoy leisure travel over both long and short distances. The rise of low cost airlines and the region's growing affluent middle class have changed the tourism environment dramatically. More tourists are booking their holidays online as a result of technological advancements. Online travel is the most important and well established aspect of Asia's Internet economy. Considering the ongoing trend of technology applications in the tourism industry in Asia, more research attempts like this book need to be made aiming towards exploring diverse aspects. As tourism is an expanding area, this book can serve as a reading companion for tourism students, policy planners and industry professionals. This book is expected to be appreciated by expatriate researchers and researchers having a keen interest in the Asian tourism industry.
