Andrea Mantegna Drawings In Close Up:

Andrea Mantegna: Drawings in Close Up Roger Godfrey, 2015-01-09 Andrea Mantegna made important contributions to the compositional techniques of Renaissance drawing somewhat rocky figures give evidence of a fundamentally sculptural approach to drawing His human forms were distinguished for their solidity expressiveness and anatomical correctness Mantegna developed a passionate interest in classical antiquity The influence of both ancient Roman sculpture and the contemporary sculptor Donatello are clearly evident in Mantegna's rendering of the human figure **Andrea Mantegna: Paintings in Close Up** Roger Godfrey, 2015-01-06 Andrea Mantegna 1431-1506 one of the foremost north Italian painters of the 15th century A master of perspective and foreshortening he made important contributions to the compositional techniques of Renaissance painting Like other artists of the time Mantegna experimented with perspective e.g. by lowering the horizon in order to create a sense of greater monumentality His flinty metallic landscapes and somewhat stony figures give evidence of a fundamentally sculptural approach to painting He also led a workshop that was the leading producer of prints in Venice before 1500 *Andrea Mantegna* Stephen J. Campbell, Jérémie Koering, 2016-01-19 Andrea Mantegna Making Art History presents the art of Mantegna as challenging the parameters of the history of art in the demands it makes upon historical interpretation and explores the artist's potentially transformative impact on the study of the early Renaissance Features an array of new methodologies for the study of Mantegna and early Renaissance art Critically addresses the question of iconography and literary art as well as the politics of the monographic exhibition Includes translations of two seminal accounts of the artist by Roberto Longhi and Daniel Arasse key texts not previously available in English Explores the Mantegna's potentially transformative impact on the study of the early Renaissance **Mantegna and Painting as Historical Narrative** Jack M. Greenstein, 1992-06 In this study Jack M. Greenstein draws on Early Renaissance art theory modern narratology translation studies critical theory the philosophy of history and biblical hermeneutics to explicate the sense and significance of one of Andrea Mantegna's most enigmatic and influential works the Uffizi Circumcision of Christ Faced with a work that resists established methods of iconographical analysis Greenstein reassesses the nature and goals of high humanist narrative painting The result is a new historically grounded theory of iconography that calls into question many widely held assumptions about the social and intellectual value of Early Renaissance art Greenstein's theory rests on a careful analysis of Leon Battista Alberti's commentary On Painting which equated both the form and the content of artistically composed painting with historia Situating this equation within a centuries-old discourse on the multivalent significance of the Bible Greenstein shows that for Alberti historia was a mode of artistic narrative common to literature and painting in which moral truths were presented to the corporeal senses particularly to vision in the guise of plausible human actions In Greenstein's reading the painter's primary task was the construction of a visually plausible narrative that effectively conveyed the higher meanings of historia Having thus delineated the structure of significance in

Albertian painting Greenstein shows what was at stake when a painter of Mantegna's historical bent undertook to produce a historia. As one of the leading historical thinkers of his age, Mantegna imbued his depicted scenes with the plausibility of historical events by employing those codes of evidence, causality, and historical distance that underlay the Renaissance sense of the past. But the Circumcision of Christ resisted such treatment because the symbolic conventions developed by earlier artists for conveying the higher theological meanings of the theme were incompatible with the representational fidelity embraced by painters of historia. Mantegna overcame these difficulties by arriving at a new understanding of the Circumcision which remained faithful to the narrative structure as well as the theological content of the biblical account. His interpretation was widely adopted by later artists but was so pictorial in nature that despite its consistency with the biblical account it remained without parallel in theological literature. Greenstein's discovery that artistic production of Albertian painting was a specialized and singularly visual form of thinking whose roots lay more in readerly hermeneutics than in perception, commerce, or common visual experience raises questions about narrative representation and the textuality of art that will interest a wide array of scholars.

The Triumphs of Caesar by Andrea Mantegna in the Collection of Her Majesty the Queen at Hampton Court Andrew Martindale, 1979 *Perfect Likeness* Cincinnati Art Museum, Julie Aronson, Marjorie E. Wieseman, Cynthia Amn  us, Columbia Museum of Art, 2006-01-01 Diminutive marvels of artistry and fine craftsmanship: portrait miniatures reveal a wealth of information within their small frames. They can tell tales of cultural history and biography of people and their passions, of evolving tastes in jewelry, fashion, hairstyles, and the decorative arts. Unlike many other genres, miniatures have a tradition in which amateurs and professionals have operated in parallel, and women artists have flourished as professionals. This richly illustrated book presents approximately 180 portrait miniatures selected from the holdings of the Cincinnati Art Museum, the largest and most diverse collection of its kind in North America. The book stresses the continuity of stylistic tradition across Europe and America as well as the vitality of the portrait miniature format through more than four centuries. A detailed catalogue entry as well as a concise artist biography appears for each object. Essays examine various aspects of miniature painting: the depiction of costume in miniatures and of the allied art of hair work.

Andy Warhol Donna M. De Salvo, Jessica Beck (Art museum curator), 2018-01-01 A unique 360-degree view of an incomparable 20th-century American artist. One of the most emulated and significant figures in modern art, Andy Warhol (1928-1987) rose to fame in the 1960s with his iconic Pop pieces. Warhol expanded the boundaries by which art is defined and created groundbreaking work in a diverse array of media that includes paintings, sculptures, prints, photographs, films, and installations. This ambitious book is the first to examine Warhol's work in its entirety. It builds on a wealth of new research and materials that have come to light in recent decades and offers a rare and much-needed comprehensive look at the full scope of Warhol's production from his commercial illustrations of the 1950s through his monumental paintings of the 1980s. Donna De Salvo explores how Warhol's work engages with notions of public and private, the redefinition of media, and

the role of abstraction while a series of incisive and eye opening essays by eminent scholars and contemporary artists touch on a broad range of topics such as Warhol s response to the AIDS epidemic his international influence and how his work relates to constructs of self image seen in social media today **Giovanni Bellini** Oskar Bätschmann,2008 With Giovanni Bellini renowned art historian Oskar Batschmann charts the fraught trajectory of Bellini s career highlighting the crucial works that established his far reaching influence in the Renaissance *The J.
