Andrea Mantegna Paintings In Close Up Volume 4:

Mantegna and Painting as Historical Narrative Jack M. Greenstein, 1992-06 In this study Jack M Greenstein draws on Early Renaissance art theory modern narratology translation studies critical theory the philosophy of history and biblical hermeneutics to explicate the sense and significance of one of Andrea Mantegna s most enigmatic and influential works the Uffizi Circumcision of Christ Faced with a work that resists established methods of iconographical analysis Greenstein reassesses the nature and goals of high humanist narrative painting The result is a new historically grounded theory of iconography that calls into question many widely held assumptions about the social and intellectual value of Early Renaissance art Greenstein s theory rests on a careful analysis of Leon Battista Alberti s commentary On Painting which equated both the form and the content of artistically composed painting with historia Situating this equation within a centuries old discourse on the multivalent significance of the Bible Greenstein shows that for Alberti historia was a mode of artistic narrative common to literature and painting in which moral truths were presented to the corporeal senses particularly to vision in the guise of plausible human actions In Greenstein s reading the painter s primary task was the construction of a visually plausible narrative that effectively conveyed the higher meanings of historia Having thus delineated the structure of significance in Albertian painting Greenstein shows what was at stake when a painter of Mantegna s historical bent undertook to produce a historia As one of the leading historical thinkers of his age Mantegna imbued his depicted scenes with the plausibility of historical events by employing those codes of evidence causality and historical distance that underlay the Renaissance sense of the past But the Circumcision of Christ resisted such treatment because the symbolic conventions developed by earlier artists for conveying the higher theological meanings of the theme were incompatible with the representational fidelity embraced by painters of historia Mantegna overcame these difficulties by arriving at a new understanding of the Circumcision which remained faithful to the narrative structure as well as the theological content of the biblical account His interpretation was widely adopted by later artists but was so pictorial in nature that despite its consistency with the biblical account it remained with out parallel in theological literature Greenstein s discovery that artistic production of Albertian painting was a specialized and singularly visual form of thinking whose roots lay more in readerly hermeneutics than in perception commerce or common visual experience raises questions about narrative representation and the textuality of art that will interest a wide array of scholars
