
These findings indicate the use of generic, qualitative, quantitative, and integrative research methods is not good practice, with some evidence of bias in favour of qualitative research, and suggests that the existing research on the topic is flawed. It is concluded that there is a need for a new approach to research synthesis in the health care research area.

Abstract

These authors proposed a group of three related adaptive algorithms for the estimation of the parameters of the unknown system. The first algorithm is based on the least squares method, the second on the recursive least squares method, and the third on the recursive least squares method with forgetting factor. The authors also proposed a new algorithm for the estimation of the parameters of the unknown system. The new algorithm is based on the recursive least squares method with forgetting factor. The authors also proposed a new algorithm for the estimation of the parameters of the unknown system. The new algorithm is based on the recursive least squares method with forgetting factor.
