51 Imperfect Solutions Jeffrey Stuart Sutton,2018 51Imperfect Solutions argues that American Constitutional Law should account for the role of the state courts and state constitutions together with the federal courts and the federal constitution in protecting our individual liberties An underappreciation of state constitutional law has hurt state and federal law and has undermined the appropriate balance between state and federal courts in protecting individual liberty The book corrects this imbalance and illustrates the virtues of federalism for all Americans **2024-25 IAS All States PSC Indian Constitution and Polity Solved Papers** YCT Expert Team , 2024 25 IAS All States PSC Indian Constitution and Polity Solved Papers 400 695 E This book contains 380 sets solved papers and 3645 objective questions **Understanding State Constitutions** G. Alan Tarr,2018-06-05 For many Americans the word constitution means just one thing the national Constitution According to a recent survey almost half do not know that individual states also have constitutions Scholars have also paid little attention to state constitutions favoring the apparently more dynamic and significant federal scene G Alan Tarr seeks to change that in this landmark book A leading authority on state legal issues he combines history law and political science to present a thorough and long needed account of the distinct and important role of state constitutions in American life Tarr shows that state constitutional politics are dominated by three crucial issues with little salience at the national level the distribution of power among groups and regions within states the scope of state and local governmental authority and the relation of the state to economic activity He explains how state constitutions differ from the national Constitution in treating not only

matters of high principle but also such mundane subjects as ski trails and motor vehicle revenues He also explores why state constitutions unlike their federal counterpart have been so frequently amended and replaced Tarr concludes that the United States not only has a system of dual constitutionalism but also has dual constitutional cultures Powerfully argued and meticulously researched the book fills an important gap in political and legal studies and finally gives state constitutions the scholarly attention they richly deserve Commercial and Financial Chronicle and Hunt's Merchant's Magazine ,1874
