	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space weapons and launch them?	That U.S. suspend the prohibition of launching nuclear weapons.	Not really.
2. Would anyone benefit from the launch and retrieval of satellites?	They would certainly gain access to information that was denied. They would be able to observe military and civilian activities.	They might realize that it was in their interest to have the U.S. launch satellites that could observe Soviet military, political and other activities in Western Europe. They might.
3. Would anyone disagree with this?	Not really.	Some might be against launch and retrieval and also satellites.
4. Would the U.S. believe that the Soviet Union would launch satellites?	Yes. The government had no prohibition. It was not a concerned country.	Yes. American people were concerned and would not take a casual attitude like the Soviets.
