Engaging with Environmental Education through the Language Arts Nicholas McGuinn, Amanda Naylor, 2024-11-04 This creative volume demonstrates the urgent importance of engaging students cognitively and affectively with the climate crisis and environmental education underpinning the vital role the language arts play in expanding this engagement for a better future Moving beyond the basic modalities of English chapters written by an internationally diverse group of contributors advocate for the integration of language arts with environmental education through broad representation of creative subdisciplines drama visual literacy philosophy poetry student voice and more These subdisciplines are explored to suggest the context in which environmental degradation forest ecologies carbon literacy and indigenous knowledges are taught further helping students to develop a comprehensive view of how they can effect change Ultimately the book makes a compelling argument by emphasising the significance of interdisciplinary learning in fostering a holistic understanding of environmental issues This volume will appeal to scholars researchers and postgraduate students in the field of environmental and sustainability education English and literacy language arts and teacher education more broadly Undergraduate students policymakers environmental educators and curriculum designers may also benefit from this volume

Thinking about Thinking James D. Madden, 2023-10-31 Thinking About Thinking Mind and Meaning in the Era of Techno Nihilism addresses our existential crisis by reminding us of the conditions for meaning that have been obscured by the modern technological mentality Madden weaves together disparate insights from Wittgenstein Hegel Aristotle Heidegger Merleau Ponty Nietzsche Sophocles and others in an attempt to account for our mindedness in terms of its inextricable connection to a world capable of inspiring our care The mind is not a discrete entity locked behind the skull or withdrawn into a ghostly realm but a participation in an inheritance biological and cultural held in common with other participants and taking responsibility for that world is crucial for the meaning The ever increasing technological mediation of our lives undermines this worldliness We are subsequently losing our minds and as our mindedness fades so goes our sense of dignity and value Madden makes this case deploying insights from phenomenology analytic philosophy Aristotelianism neuroscience and cognitive science and along the way confronts the mind body problem freedom artificial intelligence transhumanism and nihilism More importantly he invites the reader into an accessible dialogue concerning issues of grave importance to the meaning of our lives
