Shadow of Kenyan Democracy Dominic Burbidge,2016-03-09 Why has democracy failed to reduce corruption in Kenya
 Framing the challenge in game theoretical terms Dominic Burbidge examines how mutual expectations between citizens
 dictate the success or failure of political reforms Since 1992 Kenya has conducted multiparty elections with the hope of
 promoting accountability and transparency in government This is being undermined by ongoing corruption and an
 increasingly centralised state response to terrorism Providing a nuanced assessment of democracy s difficult road in Kenya
 Burbidge discusses the independent role being played by widespread social expectations of corruption Through tracking
 average views of the average person it is possible to identify a threshold beyond which society suffers mutually reinforcing
 negative social expectations This trend is the shadow of Kenyan democracy and must be treated as a policy challenge on its
 own terms before institutional reforms will be successful *Cambridge University Examination Papers* ,1899
