*Haematology in Critical Care* Jecko Thachil, Quentin Hill, 2014-06-03  
Issues of thrombosis, bleeding and transfusion are extremely common and often complex in critically ill patients. *Haematology in Critical Care: A Practical Handbook* provides a dependable source of expert guidance on how to handle common haematological problems seen in the critical care setting as well as the acute care of patients with a primary haematological disorder. Full-time clinical haematologists regularly attending on intensive care. The Editors begin with an approach to abnormal laboratory tests, following with a disease-oriented approach to topics such as coagulation and haematological malignancy. Other key topics include paediatric and neonatal care, transfusion, point-of-care testing and the emergency presentation of haematological disease. This title brings together two of the most highly scientific specialties in clinical practice, delivering a practical approach to these problems and guiding the clinician through the diagnosis and management of common scenarios encountered in the ICU.
