Balloon and Stent for Ischemic and Hemorrhagic Stroke: A New Trend for Stroke Prevention and Management Firas

Al-Ali,2015-11-09 In recent years intracranial endovascular use of Balloon and Stent has grown significantly This issue will

focus primarily on recent advances in the use of these methods today This discussion will also highlight our improvements in understanding the disease process and not only relying on devices to treat a patient Wide necked intracranial aneurysms IA were originally thought to be either untreatable or at the very least significantly challenging to treat by endovascular means due to the risk of coil protrusion and possibly parent vessel occlusion However this view now outdated today and we will discuss the significant advancement in different flow diverters The treatment of post sub arachnoid hemorrhage vasospasm is mature now as this issue will highlight In addition Intracranial atherosclerosis is still a prominent cause of stroke in various populations worldwide This issue will summarize the challenges of risk factor modification and secondary stroke prevention by defining optimal methods We will try to outline a new approach for intracranial angioplasty and stenting for stroke prevention Finally despite recent impressive increase recanalization rates in acute ischemic stroke treatment the clinical improvement rate has remained relatively stable This article will discuss a new means of improving patient selections using the capillary index score CIS The future of our specialty relies heavily on better devices and on a deeper understanding of the disease process The future is bright and we have already taken the first successful steps

Research Assessment in the Humanities Michael Ochsner, Sven E. Hug, Hans-Dieter Daniel, 2016-04-19 This book analyses and discusses the recent developments for assessing research quality in the humanities and related fields in the social sciences Research assessments in the humanities are highly controversial and the evaluation of humanities research is delicate While citation based research performance indicators are widely used in the natural and life sciences quantitative measures for research performance meet strong opposition in the humanities This volume combines the presentation of state of the art projects on research assessments in the humanities by humanities scholars themselves with a description of the evaluation of humanities research in practice presented by research funders Bibliometric issues concerning humanities research complete the exhaustive analysis of humanities research assessment The selection of authors is well balanced between humanities scholars research funders and researchers on higher education Hence the edited volume succeeds in painting a comprehensive picture of research evaluation in the humanities This book is valuable to university and science policy makers university administrators research evaluators bibliometricians as well as humanities scholars who seek expert knowledge in research evaluation in the humanities

The Neurologic Examination Hiroshi Shibasaki, Mark Hallett, 2022 The Neurologic Examination Scientific Basis for Clinical Diagnosis provides a bridge from basic neuroscience such as anatomy physiology pharmacology and molecular biology to clinical symptomatology Neurologic examinations provide the foundation for diagnosis and only after a thorough and expertly executed examination can one begin to incorporate laboratory testing and treatment In contrast with most of the previously published books of clinical neurology which are disease or anatomy oriented this book is organized in terms of functional anatomy of the nervous system Correct interpretation of symptoms and signs based on modern scientific knowledge is of utmost importance in the diagnosis of neurological diseases For this purpose the importance of careful

history taking and physical examination is emphasized and chapters are arranged in the order of actual steps of neurologic examination In this new editions the authors have updated all materials included within With up to date references new boxes to discuss specific topics of modern interest and additional chapters and figures this second edition of The Neurologic Examination Scientific Basis for Clinical Diagnosis is crucial to neurologists neurosurgeons clinicians and technicians Book jacket

Unified Field Mechanics: Natural Science Beyond The Veil Of Spacetime - Proceedings Of The Ix Symposium Honoring Noted French Mathematical Physicist Jean-pierre Vigier Richard L Amoroso,Louis H Kauffman,Peter Rowlands,2015-09-08 Unified Field Mechanics the topic of the 9th international symposium honoring noted French mathematical physicist Jean Pierre Vigier cannot be considered highly speculative as a myopic critic might surmise The 8th Vigier Symposium proceedings The Physics of Reality should in fact be touted as a companion volume because of its dramatic theoretical Field Mechanics in additional dimensionality Many still consider the Planck scale zero point field stochastic quantum foam as the basement of reality This could only be considered true under the limitations of the Copenhagen interpretation of quantum theory As we enter the next regime of Unified Field Mechanics we now know that the energy dependent Einstein Minkowski manifold called spacetime has a finite radius beyond which a large scale multiverse beckons So far a battery of 14 experiments has been designed to falsify the model When the 1st is successfully performed a revolution in Natural Science will occur This volume strengthens and expands the theoretical and experimental basis for that immanent new age
