The Meritocracy Trap Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn't a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children's education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy

and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity **10 YEAR-WISE CTET**

Structuring Inequality Tracy L. Steffes, 2024-04-02 How inequality was forged fought over and forgotten through public policy in metropolitan Chicago As in many American metropolitan areas inequality in Chicagoland is visible in its neighborhoods These inequalities are not inevitable however They have been constructed and deepened by public policies around housing schooling taxation and local governance including hidden state government policies In Structuring Inequality historian Tracy L Steffes shows how metropolitan inequality in Chicagoland was structured contested and naturalized over time even as reformers tried to change it through school desegregation affordable housing and property tax reform While these efforts had modest successes in the city and the suburbs reformers faced significant resistance and counter mobilization from affluent suburbanites real estate developers and other defenders of the status quo who defended inequality and reshaped the policy conversation about it Grounded in comprehensive archival research and policy analysis Structuring Inequality examines the history of Chicagoland s established systems of inequality and provides perspective on the inequality we live with today

Bicycle Justice and Urban Transformation Aaron Golub,Melody L. Hoffmann,Adonia E. Lugo,Gerardo F. Sandoval,2016-07-15 As bicycle commuting grows in the United States the profile of the white middle class cyclist has emerged This stereotype evolves just as investments in cycling play an increasingly important role in neighborhood transformations However despite stereotypes the cycling public is actually quite diverse with the greatest share falling into the lowest income categories Bicycle Justice and Urban Transformation demonstrates that for those with privilege bicycling can be liberatory a lifestyle choice whereas for those surviving at the margins cycling is not a choice but an often oppressive necessity Ignoring these invisible cyclists skews bicycle improvements towards those with choices This book argues that it is vital to contextualize bicycling within a broader social justice framework if investments are to serve all street users equitably Bicycle justice is an inclusionary social movement based on furthering material equity and the recognition that qualitative differences matter This book illustrates equitable bicycle advocacy policy and planning In synthesizing the projects of critical cultural studies transportation justice and planning the book reveals the relevance of social justice to public and community driven investments in cycling This book will interest professionals advocates academics and students in the fields of transportation planning urban planning community development urban geography sociology and policy

Work and Livelihoods Susana Narotzky,Victoria Goddard,2016-12-01 Winner of the Society for the Anthropology of Work book prize 2017 This volume presents a global range of ethnographic case studies to explore the ways in which in the context of the restructuring of industrial work the ongoing financial crisis and the surge in unemployment and precarious employment local and global actors engage with complex social processes and devise ideological political and economic responses to them It shows how the reorganization and re signification of work notably shifts in the perception and valorization of work affect domestic and community arrangements and shape the conditions of life of workers and their families

The Power of Geography (RLE Social & Cultural Geography) Jennifer Wolch,Michael Dear,2014-01-23 This book illuminates the profound influence of geography on everyday life Concentrating on the realm of social reproduction gender family education culture and tradition race ethnicity the contributors provide both an articulation of a theory of territory and reproduction and concrete empirical analyses of the evolution of social practices in particular places At the core of the book s contribution is the concept of society as a time space fabric upon which are engraved the processes of political economic and socio cultural life A second distinctive feature of the book is its substantive focus on the relation between territory and social practice Thirdly it represents a significant step in the redefinition of the research agenda in human geography

New Directions in Elite Studies Olav Korsnes,Johan Heilbron,Johs.

Hjellbrekke, Felix Bühlmann, Mike Savage, 2017-12-06 Since the financial crisis the issue of the one percent has become the centre of intense public debate unavoidable even for members of the elite themselves Moreover inquiring into elites has taken centre stage once again in both journalistic investigations and academic research New Directions in Elite Studies attempts to move the social scientific study of elites beyond economic analysis which has greatly improved our knowledge of inequality but is restricted to income and wealth In contrast this book mobilizes a broad scope of research methods to uncover the social composition of the power elite the field of power It reconstructs processes through which people gain access to positions in this particular social space examines the various forms of capital they mobilize in the process economic but also cultural and social capital and probes changes over time and variations across national contexts Bringing together the most advanced research into elites by a European and multidisciplinary group of scholars this book presents an agenda for the future study of elites It will appeal to all those interested in the study of elites inequality class power and gender inequality

America's Moment Rework America, 2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today's economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America's Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone

A Learning Profession? Wendy Robinson, 2014-07-11 This ground breaking book uncovers a hidden history of the professional development of serving teachers Drawing on hitherto unpublished archive material Wendy Robinson reveals an optimistic and liberal age of high class conferences in the 1920s and 1930s in London hotels and Oxford colleges free from government control where teachers from across the country and abroad gathered for professional intellectual and

cultural refreshment The status attached to these occasions was signified by the celebrities who graced them including royalty public intellectuals educational practitioners and politicians Professor Robinson then shows how post war training became more instrumental taken over by the Ministry of Education with its centrally prescribed advanced courses and from 1970 by Local Education Authorities invention of apparently democratic Teachers Centres This analysis is complemented by face to face interviews with teachers and other practitioners once active in professional development Fascinating detailed interviews brilliantly capture teachers lived experience of professional development and its influence on their teaching career development and professional identity Fresh and original lucidly written by one of the leading historians of education in Britain A Learning Profession is essential and engaging reading for those interested in the development of a teaching profession

The Routledge Handbook on Crime and International Migration Sharon Pickering, Julie Ham, 2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field

The Poisoning of the American Mind Lawrence M. Eppard, Jacob L. Mackey, Lee Jussim, 2024-09-25 What would you have to believe in order to dress up as a shaman paint your face and storm the U S Capitol What could possibly lead somebody to claim that it upholds white supremacy to encourage hard work self reliance rational thinking punctuality and politeness Such behaviors would have been unimaginable only a few years ago And yet here we are witnessing millions of people across the political spectrum displaying these clear indications of an epistemically poisoned mind Both red America and blue America are retreating into their own information bubbles seceding from a common reality Both consume far too much misinformation and disinformation developing worldviews that can sometimes be

unintelligible to others This book explores these disturbing developments and what they mean for our society and implores us all to recover a shared sense of what is true
