Facebook Nation Newton Lee, 2014-10-16 Facebook's psychological experiments and Edward Snowden's NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook. U.S. Chief Information Officer Steven VanRoekel opines that America has become a Facebook nation that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness, a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA's secret PRISM program has reinvigorated WikiLeaks founder Julian Assange's accusation that Facebook is the most appalling spying machine that has ever been invented. Facebook CEO Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government, and e-activism, as well as personal total information awareness. This expanded edition also includes insights from Wikipedian Emily Temple Wood and Facebook ROI experts Dennis Yu and Alex Houq. Where Did My Life Go? Homeless and Out of Business K.D. Sanders, 2015-10-31 Where Did My Life Go? Homeless and Out of Business is by far one of the most raw, powerful, and engaging reads that I've come across in a long long time. Author K.D. Sanders offers readers a very personal and unaltered look into his life, thoughts, and feelings as he underwent some very rough times as a homeless man while experiencing that many of us will never even come close to in our ordinary lives. I say this and the book may seem quite gloomy at first, but I also would say there's another side to it. I interpret the book as having a sort of theme about personal redemption and keeping headstrong even through all the bad things that life can throw at you. The author manages to keep his spirits high even while dealing with unfortunate circumstances, and for that I admire his courage. As well as this, the text is written in a way that flows nicely due to a relatively relaxed undertone, and there are plenty of general musings about the author's opinion on homeless life in general that I found to be very thought-provoking and even sobering at times. Overall, I enjoyed the read and I found it to be honestly quite refreshingly new compared to what I've been coming across these days. Definitely worth checking out. Amazon Review Star Observer Magazine June 2014 Elias Jahshan, 2014-05-15 Suffering in Silence Donna Mac LCPC, 2015-09-29 Selective mutism is an anxiety disorder and is currently one of the most misunderstood, underdiagnosed, and undertreated mental health conditions. When children with selective mutism feel expected or pressured to speak in social situations, they become terrified. Therefore, their level of anxiety significantly increases, but by remaining silent, their anxiety level slightly decreases, obtaining some relief for themselves. For these children, remaining silent is actually an ineffective coping mechanism or a maladapted solution to

create a sense of safety within themselves Hence their mouths freeze and they are silent This is temporary relief but longitudinally these children suffer in silence Due to the fact that many children will display normative shy behavior or even socially anxious behavior at times it can be challenging to discern if the child's behavior falls within normal limits or if the child actually demonstrates clinically significant behavior signifying a selective mutism diagnosis This can be confusing for parents teachers and even clinicians This manual is meant to help clarify this distinction and will also assist you in figuring out how to seek help ask the right questions and what you can expect from early intervention services school based services and holistic therapeutic and psychiatric services **Social Informatics** Steffen Staab,Olessia Koltsova,Dmitry I.
