 Examcart Experts, **Assessing Academic Literacy in a Multilingual Society**
 Albert Weideman, John Read, Theo du Plessis, 2020-11-02
 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy
 The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages
 Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools
 The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully
 The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience Future Information Engineering and Manufacturing Science
 Dawei Zheng, 2015-02-25
 The 2014 International Conference on Future Information Engineering and Manufacturing Science FIEMS 2014 was held June 26 27 in Beijing China
 The objective of FIEMS 2014 was to provide a platform for researchers engineers academics as well as industry professionals from all over the world to present their research results and development acti Reframed
 Stuart Shanker, 2020-03-23
 For Stuart Shanker the possibility of a truly just and free society begins with how we see and nurture our children
 Shanker is renowned for using cutting edge neuroscience to help children feel happy and think clearly by better regulating themselves
 In his new book Reframed Shanker explores self regulation in wider social terms
 Whereas his two previous books Calm Alert and Learning and Self Reg were written for educators and parents Reframed the final book in the trilogy unpacks the unique science and conceptual practices that are the very lifeblood of Self Reg making it an accessible read for new Self Reggers
 Reframed is grounded in the three basic principles of Shanker Self Reg
 There is no such thing as a bad lazy or stupid kid
 All people can learn to self regulate in ways that promote rather than constrict growth
 There is no such thing as a fixed outcome
 trajectories can always be changed at any point in the lifespan if only we have the right knowledge

and tools Only a society that embraces these principles and strives to practice them argues Shanker can become a truly just society The paradigm revolution presented in Reframed not only helps us understand the harrowing time we are living through but inspires a profound sense of hope for the future Shanker shows us how to build a compassionate society one mind at a time
