The Next Mormons Jana Riess, 2019-02-01 American Millennials the generation born in the 1980s and 1990s have been leaving organized religion in unprecedented numbers For a long time the Church of Jesus Christ of Latter day Saints was an exception nearly three quarters of people who grew up Mormon stayed that way into adulthood In The Next Mormons Jana Riess demonstrates that things are starting to change Drawing on a large scale national study of four generations of current and former Mormons as well as dozens of in depth personal interviews Riess explores the religious

beliefs and behaviors of young adult Mormons finding that while their levels of belief remain strong their institutional loyalties are less certain than their parents and grandparents For a growing number of Millennials the tensions between the Church s conservative ideals and their generation s commitment to individualism and pluralism prove too high causing them to leave the faith often experiencing deep personal anguish in the process Those who remain within the fold are attempting to carefully balance the Church s strong emphasis on the traditional family with their generation s more inclusive definition that celebrates same sex couples and women s equality Mormon families are changing too More Mormons are remaining single parents are having fewer children and more women are working outside the home than a generation ago The Next Mormons offers a portrait of a generation navigating between traditional religion and a rapidly changing culture Religion Today Ross Aden,Chris A. Kramer,2024-07-02 Religion Today introduces students to key concepts in religious studies through a compelling problem solving framework Each chapter opens with a contemporary case study that helps students engage in current religious issues explore possible solutions to difficult religious problems today and learn key themes and concepts in religious studies To enhance student learning a free Student Study Guide is available for download from Rowman Littlefield The Study Guide features chapter summaries definition quizzes for students to test themselves on key terms and possible learning activities The Self-made Billionaire Effect John Sviokla,Mitch Cohen,2014-12-30 Imagine what Atari might have achieved if Steve Jobs had stayed there to develop the first massmarket personal computer Or what Steve Case might have done for PepsiCo if he hadn t left for a gaming start up that eventually became AOL What if Salomon Brothers had kept Michael Bloomberg or Bear Stearns had exploited the inventive ideas of Stephen Ross Scores of top tier entrepreneurs worked for established corporations before they struck out on their own and became self made billionaires People like Mark Cuban John Paul DeJoria Sara Blakely and T Boone Pickens all built businesses in some cases multiple businesses that are among today s most iconic brands This fact raises two profound questions Why couldn t their former employers hang on to to these extraordinarily talented people And why are most big companies unable to create as much new value as the world s roughly 800 self made billionaires John Sviokla and Mitch Cohen decided to look more closely at self made billionaires because creating 1 billion or more in value is an incredible feat Drawing on extensive research and interviews the authors concluded that many of the myths perpetuated about billionaires are simply not true These billionaires aren t necessarily smarter harder working or luckier than their peers They aren t all prodigies crossing the billionaire finish line in their twenties Nor most of the time do they create something brand new More than 80 percent of the billionaires in the research sample earned their billions in highly competitive industries The key difference is what the authors call the Producer mind set in contrast with the far more pervasive Performer mind set Performers strive to excel in well defined areas and are important But Producers are critical to any company looking to create massive value because they redefine what s possible rather than simply meeting preexisting goals and standards Combining sound judgment with imaginative vision

Producers think up entirely new products services strategies and business models Big companies tend to reward Performers and discourage the unconventional ways of Producers But it s the latter who integrate multiple ideas perspectives and actions and who trust their insights enough to make game changing bets This book breaks down the five critical habits of mind of massive value creators so you can learn how to identify encourage and retain such individuals and maybe even become one yourself The Self made Billionaire Effect will forever change the way you think about talent and business value In honor of The Self Made Billionaire Effect purchases PricewaterhouseCoopers LLP is making a significant contribution to DonorsChoose org an online charity that connects public school teachers in need of classroom materials and experiences with individual donors who want to help PwC s gift will support financial literacy projects around the country Swimsuit Edition ,2005
