Cognition and Instruction David Klahr, 2014-01-14 First published in 1987 The author argues that information processing psychology has come to dominate the experimental study of complex human behaviour Such rapid success suggests that the approach will have as much of an impact on psychology in the field as it has had on psychology in the laboratory The chapters in this volume indicate the extent to which this potential has already begun to be realized The book is divided into four parts The first three parts

include sets of research contributions followed by discussions and the fourth part contains three chapters that offer critiques syntheses and evaluations of various aspects of the preceding papers

System Recall Alma Harris, Michelle S. Jones, 2019-10-17 This book argues that much of what passes as contemporary educational reform in education is faulty and damaging It argues that it is time for a system recall and a need to look at what matters most in the pursuit of educational goals The book focuses on what we know about contemporary educational improvement transformation and change It will provide insights into what strategies work long term to build the capacity for principled change at the school and system level The book will consider what leaders can do to secure principled school and system improvement which fully embraces diversity equity and equality It will also dispel some myths about reform at scale and challenge some prevailing ideas about educational change that it will be posited are not helping many young people to reach their potential The main argument of the book is that too many school and system improvement initiatives have not paid sufficient attention to equity issues in their pursuit of ever higher achievement and that the net effect of large scale international assessments have been to distract policy makers in ways that have not always benefitted young people The book will use system examples to underpin and exemplify six core ways of re botting the system and generating progress for all It will highlight the implications for school and system leaders
