Refugee Rights and Policy Wrongs Jane McAdam, Fiona Chong, 2019-07-01 Everyone has the right to seek asylum under international law However successive governments in Australia have declared the need to stop the boats whatever the cost be it human economic moral or legal In this new book Jane McAdam and Fiona Chong find that Australia's policies towards refugees have hardened since their bestselling *Refugees Why seeking asylum is legal and Australia's policies are not* was published in 2014 Now *Refugee Rights and Policy Wrongs* provides a wholly updated account of Australian refugee law and policy Bringing facts to bear on a highly politicised debate McAdam and Chong explain why Australia falls short of its own international commitments when it comes to policies on offshore processing detention and boat turnbacks among others This up to date account of Australia's refugee laws and policies could not come at a more crucial time and is compelling reading for anyone seeking to understand the human impacts of Australia's practices This book should be read by all Australians concerned about the inhumanity demonstrated by successive federal governments when dealing with refugees seeking our protection Ian McPhee AO

The Indian Ocean as a New Political and Security Region Frédéric Grare, Jean-Loup Samaan, 2022-01-18 This book analyses the emergence of the Indian Ocean as security complex and a strategic space of central importance and also looks at its prospective future As well as US China rivalry the India China rivalry is now the defining factor in the Indian Ocean irrespective of the strategic asymmetry This new situation has opened a space for middle powers old and new to intervene The authors argue that this situation may turn into an additional source of instability and that the creation of an inclusive and comprehensive regional security architecture as well as the strengthening of regional multilateralism should be the priority of all stakeholders in the coming decade

International Security in the Asia-Pacific Alan Chong, 2017-09-13 This volume argues that international security in the Asia Pacific lends itself to contradictory analyses of centrifugal and centripetal trends Transitional polycentrism is intrinsically awkward as a description of the security of states and their populations it implies the loosening of state control and the emergence of newly asserted authority by mixed constellations of intergovernmental organizations and non state actors It implies a competition of agendas threats to the integrity of borders and human security threats such as natural disasters airliner crashes and displacement by man made pollution and food scarcity Conversely polycentrism could also imply a return to a more neo realist oriented international order where great powers ignore ASEAN and steer regional order according to their perceived interests and relative military superiority This book embraces these contradictory trends as a foundation of analysis and accepts that disorder can also be re described from the perspective of studied detachment as polycentric order

in its historical and contemporary dimensions Christian Barriers to Jesus (Revised Edition) J. Paul Pennington, 2022-02-15

A Call to Follow Jesus When He Challenges Our Traditions There are many challenges to adequately representing Jesus to the majority world and often Western Christian traditions create unnecessary hindrances to people accepting His truth This book grew out of many interviews with Indian Jesus followers both Christians and Yesu bhaktas who identified painful stumbling blocks to receiving and sharing the gospel While Hindus often have a high view of Jesus they struggle with the conventions practices and labels around church Christian Barriers to Jesus uniquely challenges readers to examine nine barrier producing Christian traditions exploring The assumptions Christians may hold about the value origin or necessity of their customs The concerns Hindus commonly raise about traditions that confuse offend or alienate them Teachings from Jesus in Scripture that often question the same ideas or practices Pennington suggests that by not asking deep enough questions about what is essential for following Jesus and what is a non essential human invention the church is unnecessarily alienating millions of people from Him As a body it is time to honestly address these concerns developing new patterns of discipleship that reveal Jesus s heart for breaking down barriers instead of creating them The analysis presented in this book will empower readers to critically examine their personally cherished traditions and the purity of the gospel they present with insights that are relevant in all contexts Strategic Narratives, Ontological Security and Global Policy Thomas Colley, Carolijn van Noort, 2022-05-14
