

2014 Ordo Rome

**Jonathan J. Price, Margalit
Finkelberg, Yuval Shahrar**

2014 Ordo Rome:

Roman Liturgy and Frankish Creativity Arthur Westwell, 2024-01-18 This incisive in depth study unearths the significance of a neglected group of early medieval manuscripts those which transmit the Ordines Romani These texts present detailed scripts for Christian ceremonies that narrate the gestures motions actions and settings of ritual performance with particular orientation to the Roman church While they are usually understood as liturgical and thus lacking any particular creative flair Arthur Westwell here foregrounds their manuscript permutations in order to reveal their extraordinary dynamism He reflects on how the Carolingian Church undertook to improve liturgical practice and understanding questioning the accepted idea of a reform aimed at uniformity led by the monarch Through these manuscripts Westwell reveals a diversity of motivations in the recording of Roman liturgy and demonstrates the remarkable sophistication of Carolingian manuscript compilers

The Oxford Handbook of Ordoliberalism Thomas Biebricher, Werner Bonefeld, Peter Nedergaard, 2022-09-05 Since the financial crisis of 2008 ordoliberalism emerged from relative obscurity to become one of the crucial terms of analysis across a wide range of academic literatures and public discussion In fact it became the main reference for a number of issues including assessments of the attempted resolution of the Eurozone crisis arguments about German hegemony in Europe debates over the future of economic liberalism and controversies about authoritarian liberalism What is striking about ordoliberalism is its pronounced ambiguity as some view it as a more refined and potentially progressive variant of neoliberalism while others cast it as a blueprint for a regime of austerity reigning over a society of competition with only rudimentary democratic institutions And while ordoliberalism is often portrayed as a quintessentially German tradition its impact has not been confined to the German context extending all the way to the unlikely case of China In short ordoliberalism is a phenomenon of arguably considerable influence that remains poorly understood as it is mystified by its proponents and vilified by its critics The Oxford Handbook of Ordoliberalism contains a selection of chapters written by an international cast of experts on ordoliberalism that aim to elucidate and analyze the latter in all of its many facets From the intellectual origins and prime exemplars to its main theoretical themes and practical applications up to the most recent debates taking place across a range of disciplines this volume offers the first comprehensive account of ordoliberalism for the English speaking world

The Roman Imperial Court in the Principate and Late Antiquity Caillan Davenport, Meaghan McEvoy, 2023-09-23 The Roman Imperial Court in the Principate and Late Antiquity examines the Roman imperial court as a social and political institution in both the Principate and Late Antiquity By analysing these two periods which are usually treated separately in studies of the Roman court it considers continuities changes and connections in the six hundred years between the reigns of Augustus and Justinian Thirteen case studies are presented Some take a thematic approach analysing specific aspects such as the appointment of jurists the role of guard units or stories told about the court over several centuries Others concentrate on specific periods individuals or office holders like the role of women and generals in the fifth

century AD while paying attention to their wider historical significance The volume concludes with a chapter placing the evolution of the Roman imperial court in comparative perspective using insights from scholarship on other Eurasian monarchical courts It shows that the long term transformation of the Roman imperial court did not follow a straightforward and linear course but came about as the result of negotiation experimentation and adaptation [Rome's Holy Mountain](#) Jason Moralee,2018 Rome s Holy Mountain is the first book to chart the history of the Capitoline Hill in Late Antiquity from the third to the seventh centuries CE It investigates both the lived in and dreamed of realities of the hill in an era of fundamental political religious and social change **Rome, Ravenna, and Venice, 750-1000** Veronica West-Harling,2020 A comparative and interdisciplinary study Rome Ravenna and Venice explores how three cities preserved and remoulded their common Byzantine past It sheds light on how far these societies were the heirs of the Empire and how they imagined a new part Roman part Italian identity in the centuries after their imperial links were severed *The Roman Mass* Uwe Michael Lang,2022-09-29 This volume offers a new synthetic overview of the structure and ritual shape of the Roman Mass from its formative period in late antiquity to its post Tridentine standardisation Starting with the Last Supper and the origins of the Eucharist Uwe Michael Lang constructs a narrative that explores the intense religious social and cultural transformations that shaped the Roman Mass Lang unites classical liturgical history with insights from a variety of other disciplines that have drawn attention to the ritual performance and reception of the mass He also presents liturgical developments within the broader historical and theological contexts that affected the celebration and experience of the sacramental rite that is still at the heart of Catholic Christianity Aimed at scholars from a broad swathe of subjects including religious studies history art history literature and music Lang s volume serves as a comprehensive history of the Roman Mass over the course of a millenium **Rome and Byzantium in the Visigothic Kingdom** Damián Fernández,Molly Lester,Jamie Wood,2025-10-01 This volume interrogates the assumption that Visigothic practices and institutions were mere imitations of the Byzantine empire Contributors rethink these practices not as uncritical and derivative adoptions of Byzantine customs but as dynamic processes in dialogue with not only the Byzantine empire but also with the contemporary Iberian context as well as the Roman past The goal of the volume is to approach Visigothic customs not as an uncritical adoption and imitatio of contemporary Roman models an acculturation model but as unique interpretations of a common pool of symbols practices and institutions that formed the legacy of Rome The contributors argue that it is necessary to reconsider the idea of imitatio imperii as a process that involved specific actors taking strategic decisions in historically contingent circumstances *Intervisuality* Andrea Capra,Lucia Floridi,2023-03-06 Intertextuality is a well known tool in literary criticism and has been widely applied to ancient literature with perhaps surprisingly classical scholarship being at the frontline in developing new theoretical approaches By contrast the seemingly parallel notion of intervisuality has only recently begun to appear in classical studies In fact intervisuality still lacks a clear definition and scope Unlike intertextuality

which is consistently used with reference to the interrelationship between texts the term intervisuality is used not only to trace the interrelationship between images in the visual domain but also to explore the complex interplay between the visual and the verbal It is precisely this hybridity that interests us Intervisuality has proved extremely productive in fields such as art history and visual culture studies By bringing together a diverse team of scholars this project aims to bring intervisuality into sharper focus and turn it into a powerful tool to explore the research field traditionally referred to as Greek literature

Music in Medieval Rituals for the End of Life Elaine Stratton Hild, 2024 Medieval documents reveal that for centuries of European history singing for a person at the moment of death was considered to be the ideal accompaniment to a life s ending Through investigations of four manuscripts as case studies author Elaine Stratton Hild examines and recovers the music sung for the dying during the Middle Ages and considers the functions of the music a lost art of comforting the dying and the grieving

Painting, Ethics, and Aesthetics in Rome Nathaniel B. Jones, 2019-01-24 Demonstrates how ancient Roman mural paintings stood at the intersection of contemporary social ethical and aesthetic concerns

Rome: An Empire of Many Nations Jonathan J. Price, Margalit Finkelberg, Yuval Shahar, 2022-04-21 A panoramic and colourful view of the many ethnic identities languages and cultures composing the Roman Empire

Rome and the Invention of the Papacy Rosamond McKitterick, 2020-06-25 The first full study of the most remarkable history of the early popes and their relationship with Rome the Liber pontificalis

Running Rome and its Empire Antonio Lopez Garcia, 2023-12-01 This volume explores the transformation of public space and administrative activities in republican and imperial Rome through an interdisciplinary examination of the topography of power Throughout the Roman world building projects created spaces for different civic purposes such as hosting assemblies holding senate meetings the administration of justice housing the public treasury and the management of the city through different magistracies offices and even archives These administrative spaces both open and closed characterised Roman life throughout the Republic and High Empire until the administrative and judicial transformations of the fourth century CE This volume explores urban development and the dynamics of administrative expansion linking them with some of the most recent archaeological discoveries In doing so it examines several facets of the transformation of Roman administration over this period considering new approaches to and theories on the uses of public space and incorporating new work in Roman studies that focuses on the spatial needs of human users rather than architectural style and design This fascinating collection of essays is of interest to students and scholars working on Roman space and urbanism Roman governance and the running of the Roman Empire more broadly

The Idea of Rome in Late Antiquity Ioannis Papadopoulos, 2025-10-01 This book approaches the manifestation and evolution of the idea of Rome as an expression of Roman patriotism and as an urban archetype of utopia in late Roman thought in a period extending from AD 357 to 417 Within this period of about a human lifetime the concepts of Rome and Romanitas were reshaped and used for various ideological causes This monograph unfolds through a selection of sources that represent the

patterns and diversity of this ideological process The theme of Rome as a personified and anthropomorphic figure and as an epitomized notion applied on the urban landscape would become part of the identity of the Romans of Rome highlighting a sense of cultural uniqueness in an era when their city's privileged status was challenged Towards the end of the chronological limits set in this thesis various versions of Romanitas would emerge indicating new physical and spiritual potentials

Children and Everyday Life in the Roman and Late Antique World Christian Laes, Ville Vuolanto, 2016-11-10 Children and Everyday Life in the Roman and Late Antique World explores what it meant to be a child in the Roman world what were children's concerns interests and beliefs and whether we can find traces of children's own cultures By combining different theoretical approaches and source materials the contributors explore the environments in which children lived their experience of everyday life and what the limits were for their agency The volume brings together scholars of archaeology and material culture classicists ancient historians theologians and scholars of early Christianity and Judaism all of whom have long been involved in the study of the social and cultural history of children The topics discussed include children's living environments clothing childhood care social relations leisure and play health and disability upbringing and schooling and children's experiences of death While the main focus of the volume is on Late Antiquity its coverage begins with the early Roman Empire and extends to the early ninth century CE The result is the first book length scrutiny of the agency and experience of pre modern children

Conservative Liberalism, Ordo-liberalism, and the State Kenneth Dyson, 2021 The book examines the historical significance and contemporary relevance of a body of thought about rejuvenating liberalism that has tended to be neglected in the English speaking world in favour of the rise of social liberalism

The Roman Empire Peter Garnsey, Richard Saller, 2015 During the Principate roughly 27 BCE to 235 CE when the empire reached its maximum extent Roman society and culture were radically transformed But how was the vast territory of the empire controlled Did the demands of central government stimulate economic growth or endanger survival What forces of cohesion operated to balance the social and economic inequalities and high mortality rates How did the official religion react in the face of the diffusion of alien cults and the emergence of Christianity These are some of the many questions posed here in the new expanded edition of Garnsey and Saller's pathbreaking account of the economy society and culture of the Roman Empire This second edition includes a new introduction that explores the consequences for government and the governing classes of the replacement of the Republic by the rule of emperors Addenda to the original chapters offer up to date discussions of issues and point to new evidence and approaches that have enlivened the study of Roman history in recent decades A completely new chapter assesses how far Rome's subjects resisted her hegemony The bibliography has also been thoroughly updated and a new color plate section has been added

Global Byzantium Leslie Brubaker, Rebecca Darley, Daniel Reynolds, 2022-07-29 Global Byzantium is in part a recasting and expansion of the old Byzantium and its neighbours theme with however a methodological twist away from the resolutely political and toward the cultural and

economic A second thing that Global Byzantium as a concept explicitly endorses is comparative methodology Global Byzantium needs also to address three further issues cultural capital the importance of the local and the empire's strategic geographical location Cultural capital in past decades it was fashionable to define Byzantium as culturally superior to western Christian Europe and Byzantine influence was a key concept especially in art historical circles This concept has been increasingly criticised and what we now see emerging is a comparative methodology that relies on the concept of competitive sharing not blind copying but rather competitive appropriation The importance of the local is equally critical We need to talk more about what the Byzantines saw when they looked out and what others saw in Byzantium when they looked in and to think about how that impacted on our very post modern concepts of globalism Finally we need to think about the empire's strategic geographical position between the fourth and the thirteenth centuries if anyone was travelling internationally they had to travel across or along the coasts of the Byzantine Empire Byzantium was thus a crucial intermediary for good or for ill between Europe Africa and Asia effectively the glue that held the Christian world together and it was also a critical transit point between the various Islamic polities and the Christian world **A Companion to Roman Italy** Alison E.

Cooley, 2016-03-21 *A Companion to Roman Italy* investigates the impact of Rome in all its forms political cultural social and economic upon Italy's various regions as well as the extent to which unification occurred as Rome became the capital of Italy The collection presents new archaeological data relating to the sites of Roman Italy Contributions discuss new theories of how to understand cultural change in the Italian peninsula Combines detailed case studies of particular sites with wider ranging thematic chapters Leading contributors not only make accessible the most recent work on Roman Italy but also offer fresh insight on long standing debates *Roman Political Culture* Laurens Ernst Tacoma, 2020 This volume offers an original and innovative analysis of Roman political culture in Italy from the first to the sixth century AD drawing on seven case studies to argue against the prevailing view among historians that deliberative and participatory politics effectively ended with the institution of the Roman monarchy under Augustus
