Globalisation and Education Policy Reform in Botswana Richard Tabulawa, 2023-07-21 This book uses the global local dialect approach to explicate education policy reform in Botswana and interrogates the practical effects of the various education policies on curriculum pedagogy and governance of the Botswana General Education system Considering the effect of three reform policies since Botswana's Independence in 1966 the book evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs from those same discourses The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis and that each policy has improved access to general education but collectively have failed to improve its quality making suggestions for how this can be improved in the future As the first book of its kind to delve into education in Botswana from a single authored critical lens the book will be a highly relevant reading for academics researchers and post graduate students of African education comparative education education policy and curriculum studies

New Horizon of Psychological Assessment in Education (Penerbit USM) Melissa Ng Lee Yen Abdullah, Lim Hooi
Lian, Hairul Nizam Ismail, 2019-08-09 Psychological assessments are used in the field of education to find answers for the
questions raised concerning the student's intellectual, academic, social, and emotional functioning. The collection, integration,
and interpretation of all information and data gathered from the assessment will enable better understanding of the student's
characteristics and capacities. More effective interventions, recommendations, and referrals can then be implemented. This
book offers researchers and practitioners insights on assessment concepts and practices that are in line with the demand of
education in the 21st century. As the new horizon unfolded, there is a paradigm shift in assessment moving from macro to
micro level of learning from accountability of school to supporting teaching and learning from summative to formative and
diagnostics from assessing achievement of individuals to catering of learning needs of diverse learners. The new horizon of
assessment serves as a catalyst for more effective psychological assessment in educational research and practice. *The

J. Jarvis, 2016 Although sexual violence directed at both females and males is a reality in many ongoing conflicts throughout
the world today, accountability for the perpetrators of such violence remains the exception rather than the rule. While
awareness of the problem is growing, more effective approaches are urgently needed for the investigation and prosecution of
conflict-related sexual violence crimes. Upon its establishment in 1993, the Office of the Prosecutor (OTP) of the International
Criminal Tribunal for the Former Yugoslavia (ICTY) began the challenging task of prosecuting the perpetrators of conflict-
related sexual violence crimes alongside the many other atrocities committed during the conflicts in the former Yugoslavia.
This book documents the experiences, achievements, challenges, and fundamental insights of the OTP in prosecuting conflict-
related sexual violence crimes at the ICTY over the past two decades. It draws on an extensive dossier of OTP documentation,
court filings, trial exhibits, testimony, ICTY judgements, and other materials, as well as interviews with current and former OTP

staff members The authors provide a unique analytical perspective on the obstacles faced in prioritizing investigating and prosecuting conflict related sexual violence crimes While ICTY has made great strides in developing international criminal law in this area this volume exposes the pressing need for determined and increasingly sophisticated strategies in order to overcome the ongoing obstacles in prosecuting conflict related sexual violence crimes The book presents concrete recommendations to inform future work being done at the national and international levels including that of the International Criminal Court international investigation commissions and countries developing transitional justice processes It provides an essential resource for investigators and criminal lawyers human rights fact finders policy makers rule of law experts and academics

Pathways to Prosperity in Rural Malawi Andrew Dabalen,Alejandro de la Fuente,Aparajita Goyal,Wendy Karamba,Tomomi Tanaka,2017-07-06 By most accounts rural Malawi has lacked dynamism in the past decade Growth has been mostly volatile in large part due to unstable macroeconomic fundamentals evidenced by high inflation fiscal deficits and interest rates When rapid economic growth has materialized the gains have not always reached the poorest Poverty remains high and the rural poor face significant challenges in consistently securing enough food Several factors contribute to stubbornly high rural poverty They include a low productivity and non diversified agriculture macroeconomic and recurrent climatic shocks limited non farm opportunities and low returns to such activities especially for the poor and poor performance from some of the

prominent safety net programs The Report proposes complementary policy actions that offer a possible path for a more dynamic and prosperous rural economy The key pillars of this comprise macroeconomic stability increased productivity in agriculture faster urbanization better functioning safety nets and more inclusive financial markets Some recommendations call for a reorientation of existing programs such as the Malawi Farm Input Subsidy Program FISP and the Malawi Social Action Fund Public Works Program MASAF PWP Others identify promising new areas of intervention such as the introduction of digital IDs and biometric technologies to enhance the reach of mobile banking and deepen financial inclusion Finally and importantly the report recommends the scaling up of investments on girls secondary education to curb early child marriage and early child bearing among adolescents This will empower women at home and work and bend the trajectory of fertility rates in rural areas in order to boost human development and reduce poverty
