The War on Sex David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming Huang Regina Kunzel Roger N Lancaster Judith Levine Laura Mansnerus Erica R Meiners R Noll Melissa Petro Carol Queen Penelope Saunders Sean Strub Maurice Tomlinson Gregory Tomso

An Unworthy Future Joseph Toomey, 2014-07-22 It is difficult to find an area of public policy more plagued by misunderstanding than energy policy Even

worse every time the subject is raised we are obligated to get mired in pointless arguments about the weather This book helps set the record straight Not convinced Consider some of these inconvenient truths The cost of green energy climate remediation is anywhere from 10 to 1 000 times greater than the damage from the climate change it attempts to alleviate Germany the worlds leader in solar energy will spend more than 280 billion by 2030 on solar subsidies But all of that investment will only forestall 22nd century global warming by 37 hours Obamas carbon tax would cost Americans 1 2 trillion over just ten years But it would only reduce the midrange 3 degree modeled 22nd century global temperature increase by 0 038 degrees Celsius At their current emissions growth rate it will take China nine months to replace the entire U S emissions cut that Obama wants to achieve over seven years at a staggering cost in American jobs and lost economic growth The U S biofuel program imposes a cost on consumers 9 862 times greater than any climate benefit they or their distant progeny will ever derive This is not another skeptical global warming polemic but an economic evaluation of how and why green energy will fail The world has too many pressing needs For the money Obama squandered on just a single bankrupt crony solar company the U S could have prevented 300 000 childhood malaria deaths in poor countries A thoroughly researched heavily documented book by an expert in his field it will demonstrate in meticulous detail how wasteful and economically inefficient Obamas green energy dead end future will be compared to other worthy alternatives Its time to end the hysterical climate cynicism and get on humanitys side

Children at the Center Betty Bardige, Megina Baker, Ben Mardell, 2021-03-09

Children at the Center provides a closely observed account of a decade long effort to reshape the scope direction and quality of the Boston Public Schools early childhood programs Drawing on multiple perspectives and voices from the field the authors highlight the reflective collaborative inquiry driven approach undertaken by the program and share lessons learned Boston Public Schools are recognized for embedding high quality public preK programs in their system and achieving exceptional results In this book the authors outline the core principles that underlie the district s early childhood programs and explore the role of curriculum professional development coaching and data use in supporting these new initiatives They show how the Boston Public Schools Department of Early Childhood was able to work with and against the constraints of the current accountability system to create a holistic child centered play based program that has had a significant impact in narrowing income based learning gaps Written in collaboration with the Department of Early Childhood Education this account of creating successful preK programs in a diverse urban district will provide a valuable resource for practitioners engaged in similar work across the country
