Lewis, 2023-12-22 The essays in this wide ranging beautifully illustrated volume capture the theoretical range and scholarly rigor of recent criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art. Readers are invited to consider the profound issues and penetrating questions that lie beneath this perennially popular body of work as the contributors examine the art world of late nineteenth century France including detailed looks at Monet, Manet, Pissarro, Degas, Cézanne, Morisot, Seurat, Van Gogh and Gauguin. The authors offer fascinating new perspectives placing the artworks from this period in wider social and historical contexts. They explore these painters' pictorial and market strategies, the critical reception and modern criteria, the paintings engendered and the movement's historic role in the formation of an avant garde tradition. Their research reflects the wealth of new documents, critical approaches and scholarly exhibitions that have fundamentally altered our understanding of Impressionism and Post Impressionism. These essays, several of which have previously been familiar only to scholars, provide instructive models of in depth critical analysis and of the competing art historical methods that have crucially reshaped the field. Contributors: Carol Armstrong, T. J. Clark, Stephen F. Eisenman, Tamar Garb, Nicholas Green, Robert L. Herbert, John House, Mary Tompkins, Lewis, Michel Melot, Linda Nochlin, Richard Shiff, Debora Silverman, Paul Tucker, Martha Ward.

*Foreign Currency Volatility and the Market for French Modernist Art* David Challis, 2021-08-04 *Foreign Currency Volatility and the Market for French Modernist Art* examines how the collapse of the French franc in the decades following the First World War activated powerful push and pull economic forces that compelled French art collectors to monetise their collections while simultaneously elevating the purchasing power of international art collectors. These factors are shown to have played a significant and previously under recognised role in the large scale translocation of French modernist art that radically accelerated its commercial and critical reception across the globe and positioned it at the apex of the newly established hierarchy of modern art. *Post-impressionism: from Van Gogh to Gauguin* John Rewald, 1962

Library, 1973      **Impressionism** John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush. Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet, Cézanne, Renoir, Degas and van Gogh. Basically impressionism involved the shedding of traditional painting methods. The subjects of art were taken from everyday

life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes
