Oversight of the DTV Transition United States. Congress. Senate. Committee on Commerce, Science, and Transportation,2013 **The Economics of the Publishing and Information Industries** Albert N. Greco,2014-12-05 Books scholarly journals business information and professional information play a pivotal role in the political social economic scientific and intellectual life of nations While publications abound on Wall Street and financial service companies the

relationship between Wall Street's financial service companies and the publishing and information industries has not been explored until now. The Economics of the Publishing and Information Industries utilizes substantive historical business, consumer, economic, sociological, technological, and quantitative and qualitative methodologies to understand the people, trends, strengths, opportunities, and threats the publishing industry and the financial service sector have faced in recent years. Various developments, both economic and demographic, contributed to the circumstances influencing the financial service sector's investment in the publishing and information industries. This volume identifies and analyzes those developments, clearly laying out the forces that drove the marriage between the spheres of publishing and finance. This book offers insight and analysis that will appeal to those across a wide variety of fields and occupations, including those in financial service firms, instructors and students in business communications, finance, or economics programs, business and financial reporters, regulators, private investors, and academic and major public research libraries.

Game Changer Jean-Manuel Izaret, Arnab Sinha, 2023-10-17. The right pricing strategy can change the entire trajectory of a business, a market, and even society at large. To help you create your best pricing strategy efficiently and confidently, two leaders from BCG are introducing fresh perspectives on pricing that take you far beyond the realm of mind-numbing numbers. In their new book *Game Changer: How Strategic Pricing Shapes Businesses, Markets, and Society*, Jean-Manuel Izaret and Arnab Sinha simplify and clarify pricing strategy by integrating its many frameworks and concepts into seven distinct pricing games, each with its own proven tools, rules, forces, and structures. To help you pick the right game and play it well, Izaret and Sinha have developed the Strategic Pricing Hexagon, a tool refined through years of testing, iteration, and adaptation. The Hexagon is your portal to a business world where stronger growth and better financial performance come from a set of strategic pricing decisions, not endless myopic quests for optimal prices. But more than that, the Hexagon will change the way you think about and talk about pricing. The current conversation around pricing, as expressed through economics textbooks,

Excel spreadsheets political discourse and educated guesswork makes it easy to believe that pricing is nothing more than a technical tactical and for most people boring game of numbers Game Changer changes that conversation by sharing stories and research that bring the Hexagon and its seven pricing games to life With research from BCG's Bruce Henderson Institute and real world examples from the world's most influential companies the authors and their colleagues at BCG define pricing strategy as a business leader's or business owner's conscious decisions about how money flows in their market They show how companies succeed in the long term when they focus on collaborative growth and value sharing with customers not zero sum value extraction from them Discover how you can create and implement a winning pricing strategy that changes the trajectory of your business your market and even society *Directions in Tropical Agroforestry Research* P. K.

Ramachandran Nair, C.R. Latt, 2013-04-18 Large areas of the warm humid tropics in Southeast Asia the Pacific Latin America the Caribbean and Africa are hilly or mountainous Jackson and Scherr 1995 estimate that these tropical hillside areas are inhabited by 500 million people or one tenth of the current world population many of whom practice subsistence agriculture The region most affected is Asia which has the lowest area of arable land per capita Aside from limited areas of irrigated terraces most of the sloping land which constitutes 60% to 90% of the land resources in many Southeast Asian countries has been bypassed in the economic development of the region Maglinao and Hashim 1993 Poverty in these areas is often high in contrast to the relative wealth of irrigated rice farms in lowland areas that benefited from the green revolution Rapid population growth in some countries is also exacerbating the problems of hillside areas Increasingly people are migrating from high potential lowland areas where land is scarce to more remote hillside areas Such migration together with inherent high population growth is forcing a transformation in land use from subsistence to permanent agriculture on fragile slopes and is creating a new suite of social economic and environmental problems Garrity 1993 Maglinao and Hashim 1993
