Female Rule in Chinese and English Literary Utopias Qingyun Wu,1995-06-01 Qingyun Wu's work is a unique discovery in literary studies in the West Chinese utopian literature paired with its English counterparts form an original and valuable contribution to world literature In widely varying historical and cultural texts that span the last five centuries Wu analyzes the theme of female rule including a critique of patriarchy and emphasizing a vision for women To date Chinese utopias have been insufficiently explored and unavailable to Western scholars Wu's theories of the politics of female rule as seen in Chinese and English literature since the end of the sixteenth century are predicated on three significant changes that have taken place during those periods These include an outright rejection of rule by women to rule by women in the guise of men from individual to collective female rule and from an idealized matrilineality to anarchism by the female principle Works examined include Edmund Spenser's *The Faerie Queen* Luo Maodeng's *Sanbao's Expedition to the Western Ocean* Florence Dixie's *Gloriana* Charlotte Perkins Gilman's *Herland* Ursula K LeGuin's *The Dispossessed* Chen Duansheng's *The Destiny of the Next Life* Li Ruzhen's *The Flowers in the Mirror* and Bai Hua's *The Remote Country of Women* This critical view of the development of feminist utopias in both the East and West will be of interest to scholars of women's studies political science and anthropology as well as to those in literature for both the classical and modern periods [Urban express : 15 urban rules to help you navigate the new world that's being shaped by women & cities](#) Per Schlingmann,Kjell A.

Alexis Lothian, 2018-09-25 Finalist 2019 Locus Award for Nonfiction presented by the Locus Science Fiction Foundation Traverses the history of imagined futures from the 1890s to the 2010s interweaving speculative visions of gender race and sexuality from literature film and digital media Old Futures explores the social political and cultural forces feminists queer people and people of color invoke when they dream up alternative futures as a way to imagine transforming the present Lothian shows how queer possibilities emerge when we practice the art of speculation of imagining things otherwise than they are and creating stories from that impulse Queer theory offers creative ways to think about time breaking with straight and narrow paths toward the future laid out for the reproductive family the law abiding citizen and the believer in markets Yet so far it has rarely considered the possibility that instead of a queer present reshaping the ways we relate to past and future the futures imagined in the past can lead us to queer the present Narratives of possible futures provide frameworks through which we understand our present but the discourse of the future has never been a singular one Imagined futures have often been central to the creation and maintenance of imperial domination and technological modernity Old Futures offers a counterhistory of works that have sought with varying degrees of success to speculate otherwise Examining speculative texts from the 1890s to the 2010s from Samuel R Delany to Sense8 Lothian considers the ways in which early feminist utopias and dystopias Afrofuturist fiction and queer science fiction media have insisted that the future can and must deviate from dominant narratives of global annihilation or highly restrictive hopes for redemption Each chapter chronicles some of the means by which the production and destruction of futures both real and imagined takes place through eugenics utopia empire fascism dystopia race capitalism femininity masculinity and many kinds of queerness reproduction and sex Gathering stories of and by populations who have been marked as futureless or left out by dominant imaginaries Lothian offers new insights into what we can learn from efforts to imaginatively redistribute the future **Original Nation**

Kramp, 2024-02-26 *Patriarchy's Creative Resilience* explores the disturbing sustainability of White male supremacy. Kramp traces an imaginative failure and an imaginative success: his focus on British speculative fiction published between 1870 and 1900 demonstrates how even this elastic and wildly inventive literary form remains incapable of promoting non-patriarchal masculinity, and he attributes this inability to the creative resiliency of white male supremacy. He demonstrates the inventive use of diverse resources that we frequently view as custom or uncomplicated history and a versatility that we often dismiss as sheer power. He draws on an archive of late nineteenth-century speculative fiction to detail a versatile patriarchal toolbox including hegemonic masculinity, control of dangerous women, hyperbolic and sentimental performances of male sovereignty, and reversions to authoritarian at times violent conduct. He also considers how the classic military strategy of dividing to conquer undergirds all these tactics, inhibiting our creating energies and dynamic collaborations. Various chapters demonstrate the enterprise, ingenuity, and adaptability of patriarchy to refashion and rejustify normalized systems of oppression. While scholars have consistently identified moments and agents of resistance to patriarchal structures by highlighting creativity, resiliency, and resourcefulness, Kramp's project reveals how patriarchy itself is creative, resilient, and resourceful.
