

Fundamental Counting Principle: *The counting principle suggests if one event has m possible outcomes and a second independent event has n possible outcomes, then there are $m \times n$ total possible outcomes for the two events together. (This basically suggests Options - Options - Options..... will determine the number of possible outcomes.)*

Permutations: A collection of things, in which the order does matter.

Combinations: A collection of things, in which the order does NOT matter.

Directions: No Work = No Full Credit. Then, determine the number of possibilities:

- 10 friends are at a party and they decided the party was boring and decided to go to a club in two different cars. One of the friends, Susan, has an SUV that can carry 7 passengers. So, Susan, can take 6 more of the 9 friends with her. How many different groups of 6 people are possible from the 9 remaining friends? combination $9C6=84$
- A person is playing a card game called '21' in which they receive 2 cards from a dealer. If the order does not matter how many 2 card hands are possible (52 cards in a deck)? combination $52C2=1326$
- There are 12 students in a class. The students are instructed to line up on a set chorus stand. That has 3 rows. The front row can hold 5 people. How many possible arrangements are there for the front row using the 12 students? Permutation $12 \times 11 \times 10 \times 9 \times 8$ $12P5(95040)$
- How many unique license plates tags can be created if each is 6 characters such that the first three characters can be any letter or number but no character is allowed to be repeated in the first three characters, and the last three spaces can be any letter or number?
- The Mrs. Georgia pageant is taking place and there are 20 contestants. How many different ways could the pageant have a winner and a runner up? permutation $20P2=20 \times 19$ (380)
- The following shows a lottery card in which a participant bubbles in 6 numbers out of 42. How many different ways can a participant select a group of 6 numbers?
combination $42C6$ 5245786
