God, Freedom, and the Body of Christ Alexander J. D. Irving,2020-10-13 A contribution to the end of the Church knowing itself as the body of Christ Irving articulates a theology of the Church as that which participates in all that Jesus is in his vicarious humanity by the power of the Spirit This is developed through a dialogical or covenantal frame that has its focal point in Christ in whom the faithful love of God toward creation and the faithful love of creation toward God is actualized The

Church as the body of Christ participates in the mediatorial work of Jesus Christ Each chapter explores a different element of this participatory ecclesiology This book offers a constructive ecclesiology built from the ground up on the foundation of a dialogical perspective which has participation in Christ as its controlling center This foundation provides the basis upon which an exhilarating vision of the Church can be built to encourage Christians to cherish the Church as the body of Christ which participates in the triune communion through being included into the Son by the power of the Spirit and comes to reflect the triune God in its own structures

Ritual, Text and Law Richard F. Gyug, 2017-11-28 Reflecting the range of their honorand's interests the essays in Ritual Text and Law provide a stimulating and panoramic exploration of the interrelated fields of liturgy and canon law in the Middle Ages chiefly through the scrutiny of texts and their transmission Roger Reynolds' scholarly work has not only considered the relations between law and liturgy but has also focused on liturgical practice and the evolution of rituals paleography and the often complicated relationships between canonical collections in particular the southern Italian Collection in Five Books Due in large part to Reynolds' research the fields of medieval canon law and liturgy are now recognized as fundamental elements of medieval religious and intellectual history that shed light on medieval Christian belief and practice The studies are grouped thematically under the headings of Ritual

and Text and Law Each section has an introduction by the editors in which they survey recent developments in the study of medieval canon law and liturgy with reference to Reynolds's own research provide historical context for the individual studies and draw attention to the ways in which the studies reflect current concerns Individually the contributors offer new viewpoints on key issues and questions relating to medieval religious cultural and intellectual history particularly of the period c 900 1200 and especially the Italian peninsula Collectively they illuminate the interaction of medieval Christianity and its rituals as well as the relationship of the secular and the sacred as transmitted in liturgical canonical texts from the time of the early church to the 14th century **Historical Dictionary of Anglicanism** Colin Buchanan, 2015-10-22
