Animal Communication From Heaven And Earth By The Animal Psychic:

Animal Communication from Heaven and Earth Jackie Weaver, 2014-12-01 Animal Communication from Heaven and Earth 45000 words This is number five in the The Animal Psychic series and all communications are genuinely from work she has done The owners of the animals that Jackie communicated with have written their stories personally to be included in this book The animals range from pet rabbits to horses and some are in Heaven and others still on Earth The living stories show how Jackie has managed through her communication skills to solve problems and help the animals and their owners The spirit stories are very moving and show that animals do live in spirit and how connecting with them when they have passed over is possible From the back of the book Jackie Weaver is an amazing animal psychic She understood my dogs to perfection and what she said was interesting amusing and really helped me to get closer to them Jackie has helped many people overcome problems with their animals However what is even more fantastic are her communications with animals that have passed over and how she has helped their owners to come to terms with their grief This is an extraordinary book with great stories that will fill you with an array of heartfelt emotions William Roache MBE Psychic Communication with Animals for Health and Healing Laila del Monte, 2010-03-09 The transformation and insights of an acclaimed flamenco dancer turned world renowned animal communicator and healer Presents powerful case histories of animals with whom she communicated and treated Offers instruction on how to establish communication with animals When Laila del Monte was a child growing up on the Balearic island of Formentera she experienced a special bond with the animals that were a part of her life Later as she became entirely focused on her career as a flamenco dancer she resisted those who told her that her true vocation was as a healer But when her own health challenges jeopardized her dancing career the healing energies she received from both her human and animal teachers raised her consciousness about the important insights animals have to offer on the state of our physical and emotional well being In this book Laila del Monte reveals how the unconditionally loving nature of animals very often leads them to take on the physical pains and negative emotional experiences of the human beings in their lives The animals absorb negative emotions such as guilt anger jealousy and other issues that stop people from moving forward and reflect these back in their animal behavior Through her work with countless animals suffering from behavioral disorders or who have been sick or injured del Monte learned that the physical healing of the animals is directly tied to the emotional healing of the people they are close to The stories and situations she shares in this book demonstrate that learning what animals have to teach us about our lives does not require any magical formula or laborious training it is part of our natural birthright We need only to revive our own deep intuition to restore this connection The authenticity and loving nature of del Monte s approach is not only testimony to her dedication and amazing abilities but also shows us the way we can follow the same path simply and honestly *THE AFTERLIFE. Ph.D.,2015-04-30 Barbara Carusos life has been touched too often by death by sorrow and by synchronicity As an accident survivor with a near death experience she was inspired to learn more about what happens after the end of life As a nurse and a scholar she was able to use her own personal experiences to inform a professional opinion of the one of the great unknowns in the mortal experience As a grieving daughter she yearned for understanding on an intensely personal level With the help of psychic communicators Barbara was able to get some of the answers she craved Decades after his sudden and untimely death she was able to connect with her lost fatherand quickly and effectively address her most crippling long term issues including rejection and lack of love For more than ten years she has engaged in powerfully healing conversations with lost loved ones including beloved deceased pets In Lessons Learned from the Other Side she shares her favorite stories of these communications to open eyes hearts and minds to the possibility that relationships do not have to end with death She is dedicated and committed to the use of an authentic psychic connection to assist with the resolution of a concern with those who have passed beyond and she hopes to inspire others to pursue this spiritual and profoundly healing form of communication Animals and the Afterlife Kim Sheridan,2011-04-25 Kim Sheridan grew up with animals as her constant companions Each time she faced the death of a beloved animal along with the pain came the same questions to which she could find no answers Then mysterious things began to happen that she couldn t explain which led her on an incredible journey to uncover the truth Along with her own extraordinary experiences she compiled heartwarming and meaningful true stories of everyday people around the world and discovered compelling evidence that forever erased her own doubts about an afterlife for animals This book provides enormous comfort and reassurance to anyone who has ever cherished an animal and food for thought for anyone who has ever questioned the place of these beloved creatures in the larger scheme of things both here on Earth and beyond **Exploring Spirituality from a Post-Jungian Perspective** Ruth Williams,2023-03-03

Derived from Ruth Williams more than 40 year immersion in spiritual practice as well as her clinical experience as a Jungian analyst this thought provoking volume explores the nature of spiritual paths and trajectories in practical ways incorporating personal anecdote and ground breaking academic research and providing a window into how Jungian practitioners work with soul and spirit Williams explores the nature of being a human using the Yiddish idea of a person being a mensch which means

being a decent human being having humanity and living ethically with integrity The idea of grace is the thread that runs through the book the mystery that binds things together and makes life meaningful purposeful potentially joyful and spiritually fulfilling Williams sees grace as being that which underpins and lies behind synchronicity and divinatory practices and as a force by which we can learn to be guided Rooted in clinical work Exploring Spirituality from a Post Jungian Perspective is fascinating reading for Jungian analysts therapists and academics as well as for general readers interested in a spiritual journey both personally and for clinical purposes

What Your Animals Tell Me Dr. Monica
Diedrich,2001-10-01 You do what people exclaim in amazement when I tell them I am an animal communicator And how exactly do you do that they ask Well I reply I get pictures in my mind like clips of a movie These pictures tell me whether an animal is happy or sad if it s longing for something or satisfied with its life They show me their wants desires needs and their hurts The images I receive do not refer to time so it may be hard to place the content of the picture in the past present or future Also the meaning depends greatly on the circumstances surrounding the event or the context of the situation The images are often accompanied by impressions feelings tastes sounds and smells I use all my senses when I am receiving the picture clips so when I see a scene I also know how the animal feels about what I m seeing Occasionally I call myself an animal behaviorist which is tongue in cheek because most of the time any behavioral change called for is on the part of the human and not the pet People often assume that because I communicate with animals I grew up close to them observing them and sharing their lives In fact I grew up in Buenos Aires Argentina a busy metropolitan city surrounded by apartment buildings The downtown area where skyscrapers competed for the sky and for how many apartments or offices they could contain was no place for pets To see the slightest hint of green I had to walk to a park the lungs of the city a couple of miles away When I was eight my family bought a summer home about two hours away from the city It was a large Spanish style home surrounded by lush green and lots of fruit trees It was a little piece of heaven away from the noise of taxi horns and exhaust fumes All of my three month long school vacations were spent there and on one such vacation I realized that I could hear animals thoughts On the corner next to us were neighbors who had emigrated from Europe They had a farm and everyone within 30 miles knew the family and sought them out for fresh produce They also raised chickens for eggs cows for milk a few work horses a couple of dogs and some barn cats We felt lucky to have them nearby as it meant that we would not starve even during bad summer floods I would often go next door to buy milk and eggs On one occasion I was given a tour of the farm and saw a new mother pig with about 20 piglets beside her I was surprised to hear her complain about how incredibly tired she found nursing her young As I heard this she was looking right at me and it was clear to me that I was not imagining it I was paralyzed by this phenomenon and couldn t move for a long while From then on I volunteered to go for supplies all the time so that I could talk to the animals Once a dog tied to a tree told me how hot he was and laughed about

the beating he received the previous day for breaking his chain He said It didn't hurt that much and besides it was worth it I got to inspect the whole ranch and marked everything Now even if I'm tied down most of the day everyone will know it's all mine I also heard a cow that warmly offered me some freshly squeezed milk and the chickens complained about the new arrogant young cock At such a young age I took these things for granted never realizing that not everyone had this gift I simply replied to the animals and went on playing It was not always pleasant however One day a dog was about to be beaten and I really heard his desperate cry for help The man undid his belt and called the dog to his side The faithful animal well aware of what was going to happen obediently trotted over to him shoulders sloughing down head looking at the ground and tail curled low between his legs He looked at me and screamed Tell him to stop tell him not to do it Please don't hurt him I begged the owner but to no avail He needs to be taught a lesson the man said gruffly Filled with anger and disbelief I turned and walked away the dog's cries ringing in my head His pain was my pain I ran home and vowed to never experience this again It wasn't until my eighteenth birthday that I realized I was different and began asking why I got extrasensory information from people and animals but others didn't Why was vivid déjà vu an everyday occurrence Why could I foretell events For example in conversations I routinely knew what someone would say next This was a matter of mild curiosity for me until the day my world stopped I had just married and we went to a furniture store to buy furnishings for our new apartment The moment I set foot in the store I started to see a movie that showed me what the two level store looked like and I noted that the sweeping main staircase reminded me of the one in Gone with the Wind I saw how every piece of furniture that we would buy was already in our new apartment And I suddenly discovered why I was there and why this was happening The picture inside my head showed me a little girl playing on the staircase accidentally fall and break several bones My mind raced What am I supposed to do I wondered Has this already happened Or is it about to happen And if so what am I supposed to do Stop the little girl Tell her mother WILL SOMEONE TELL ME WHAT TO DO I screamed internally The movie played for several minutes during which time I actually saw a little girl begin to play on the staircase She was jumping to the first step then turning around and jumping to the ground The next time she jumped two steps and turned to jump back to the ground level She did this several times each time jumping up one more step before turning and jumping down I was motionless watching and reliving my premonition I counted six steps and as I saw her begin to turn I screamed This startled her and she shifted her weight so that unlike the premonition she was only bruised with no broken bones She still cried and screamed for her mother but I felt so good when I saw her stand up and run to her family Somehow my scream had changed the outcome Shaken and confused I wondered to whom I could speak about this Who would understand Would I be judged weird or worse insane I decided to say nothing to anybody except God the Universe or whoever out there was in charge and hopefully listening If I am never shown any bad things then I will accept this gift and put it to work in helping people and animals I will honor this promise as long as you never ever show me scary things again Getting over the furniture store incident took many

years By then however I knew what the word psychic meant I had read all the books by Jane Roberts in which she channels an entity named Seth and was glad to learn that I wasn't the only one who was strange Jane Roberts had the same doubts that I had and as she recounted that she was in fact her own worst skeptic and critic I began to feel more at ease Then came other authors And so my path began How will I use my gift in a positive way to help animals I wondered I reasoned that when you meet new people you begin by asking them about themselves So why not just do the same with the animals I will ask them questions and they will answer I decided As I would come to find animals are usually happy to describe their personality so that I can get to know them quickly For example they may describe themselves as a little lady an old grouch an adventurer or a couch potato Sometimes they explain their interaction with family members They might tell me for instance that they are very close to Mom or Dad Most animals hold a parental like image of their humans so Mom or Dad often comes to mind Members of a multi pet household talk about who is top dog A few talk about friends when describing the humans with whom they share a home Amazingly even those who are beaten and cursed talk lovingly about their families Some give me deep spiritual messages while others talk about their favorite food or activity They all talk about love about patience and about having a job to do Their jobs vary and are the most important part of their lives Dogs for instance might take care of the house watch for strangers keep an eye on the kids prohibit the cat from entering the room or watch the baby Outside dogs can go hunting fishing hiking or herding No matter what the job is they always enjoy doing it well They want to please their human companions and see them happy Cats on the other hand are more independent Although some of them have a job their main desire is to sleep sunbathe and do exactly what they want as opposed to what you want Still they balance their wants and desires so that the relationship can be give and take Granted some of you give more than you take or do you At times it seems as if our animals give us a lot more than we offer them Their unconditional love is always there for us regardless of how we treat them and that far outweighs any payment or sacrifice that we can make Many of the stories in this book reveal that often our animals main purpose is to teach us something about ourselves and if they don't achieve that purpose in one lifetime they will reincarnate back with us to continue their work This may involve an animal getting the same sickness as its human guardian With one of my clients the animal died while she made a complete recovery Understanding the role of our animals and what they do is sometimes far beyond our comprehension By their actions they mirror your feelings showing you whether you're having a good day or a bad one By being stressed themselves they show you how stressed you are Even when you show no outward signs of stress they sense it because they can see your aura the energy field surrounding your physical body and become sponges absorbing your stress for themselves This helps you feel more relaxed And what do you do then You pet them and tell them you love them They in turn show you their tummy look at you with adoring eyes or simply purrrrrrrrr Purring signifies a magnificent feeling of contentment To make your kitty purr with delight means that you must be a wonderful person She needs you to show love and you do In return she shows you just how

special you are After all she doesn't purr for just anyone When our animals speak to us they say things they need us to hear They seldom complain but do want us to see their perspective It's not enough for us just to understand what they're saying though often we must also take some action If during a consultation I tell you that the reason your cat refuses to use her litter box is because it's dirty I get concerned if you give me excuses such as I work long hours and get home tired I can't change the location of his box or He always liked that brand of litter before I can't change your animal's mind I can only tell you what they tell me It's up to you to act on it and do the changing Some people scoff when pet lovers ascribe human-like feelings to their animals As an emotional empath I disagree every day animals share their feelings with me They can also rationalize what they want and what they prefer and events and circumstances to do with home and family It is my hope that this book will open a door in your mind Even if you question my gift please strive to be receptive to the insights it offers And know that I have been as truthful and honest in every detail as I possibly can Some of these consultations are on audio cassette for my reference and others have been verified with the animal's owner The stories are all true Hopefully this book will reveal the rich and deep inner world of our pets so that owners may appreciate them more Animals know far more about what is happening in their lives and yours than we give them credit for And as you will see they have souls that survive physical death as do we and often watch over us from the other side For clarification in the following accounts I have put the animals' communications to me in quotation marks as if they are speaking Sometimes I do in fact hear actual words when it is important I get the whole sentence and other times I get a few words with the movie clip I hope this conveys the to and fro nature of our telepathic conversations So please relax and enjoy each chapter filled with the animals' insights and perceptions and walk alongside their families to experience how animals affect, enrich and enlighten our lives every day Dr Monica
