Animal Crossing: New Horizons Noah Wardrip-Fruin, 2025-10-09 Can a game take care of us And do we want it to Animal Crossing New Horizons was released on March 20 2020 just as a pandemic kept many from family work restaurants and the rest of their regularly scheduled lives At its height the game averaged one million copies sold per day as players sought comfort escape and a virtual means of connection In this book game scholar Noah Wardrip-Fruin isolated with his family by both lockdown and disability explores the power of this game and the mixed

emotions of a player and a parent trying to make it from one day to the next while his kids obsession with Animal Crossing creates conflicts between them and pushback against family rules Wardrip Fruin helps both Animal Crossing fans and newcomers understand the unexpected beneath the game s surface like the story of the first Animal Crossing codesigned by an absent father seeking connection like the hallmarks of video game manipulation from streak bonuses to game determined playtimes like the appeal of endless shopping in a kind of safe capitalism and of course like the character quirks of a raccoon dog Tom Nook who provides a world of both safety and strange paternalism For many this blockbuster game offered a comforting world compared to a reality of danger In this first entry in the Replay series Wardrip Fruin offers an absorbing investigation of a game s role in contemporary social life and a book that belongs on the shelf of anyone who loves or is puzzled by this Nintendo sensation

The Rough Guide to Videogames Kate Berens,Geoff Howard,2008 A guide to a plethora computergames characters players and the world surrounding them

Persuasive Games Ian Bogost,2010-08-13 An exploration of the way videogames mount arguments and make expressive statements about the world that analyzes their unique persuasive power in terms of their computational properties Videogames are an expressive medium and a persuasive medium they represent how real and imagined systems work and they invite players to interact with those systems and form judgments about them In this innovative analysis Ian Bogost examines the way videogames mount arguments and influence players Drawing on the 2 500 year history of rhetoric the study of persuasive expression Bogost analyzes rhetoric s unique function in software in general and videogames in particular The field of media studies already analyzes visual rhetoric the art of using imagery and visual representation persuasively Bogost argues that videogames thanks to their basic representational mode of procedurality rule based representations and interactions open a new domain for persuasion they realize a new form of rhetoric Bogost calls this new form procedural rhetoric a type of rhetoric tied to the core affordances of computers running processes and executing rule based symbolic manipulation He argues further that videogames have a unique persuasive power that goes beyond other forms of computational persuasion Not only can videogames support existing social and cultural positions but they can also

disrupt and change these positions themselves leading to potentially significant long term social change Bogost looks at three areas in which videogame persuasion has already taken form and shows considerable potential politics advertising and learning
