The Japanese Cinema Book Hideaki Fujiki, Alastair Phillips, 2020-05-28 The Japanese Cinema Book provides a new and comprehensive survey of one of the world's most fascinating and widely admired filmmaking regions. In terms of its historical coverage, broad thematic approach, and the significant international range of its authors, it is the largest and most wide-ranging publication of its kind to date. Ranging from renowned directors such as Akira Kurosawa to neglected popular genres such as the film musical and encompassing topics such as ecology, spectatorship, home movies, colonial history, and relations with Hollywood and Europe, The Japanese Cinema Book presents a set of new and often surprising perspectives on Japanese film. With its plural range of interdisciplinary perspectives based on the expertise of established and emerging scholars and critics, The Japanese Cinema Book provides a groundbreaking picture of the different ways in which Japanese cinema may be understood as a local, regional, national, transnational, and global phenomenon. The book's innovative structure combines general surveys of a particular historical topic or critical approach with various micro-level case studies. It argues there is no single fixed Japanese cinema but instead a fluid and varied field of Japanese filmmaking cultures that continue to exist in a dynamic relationship with other cinemas, media, and regions. The Japanese Cinema Book is divided into seven inter-related sections: Theories and Approaches; Institutions and Industry; Film Style; Genre; Times and Spaces of Representation; Social Contexts; Flows and Interactions.

Comics Studies Here and Now Frederick Luis Aldama, 2018-05-15 Comics Studies Here and Now marks the arrival of comics studies scholarship that no longer feels the need to justify itself within or against other fields of study. The essays herein move us forward, some in their re-diggings into comics history and others by analyzing comics and all its transmedial and fan-fictional offshoots on its own terms. Comics Studies stakes the flag of our arrival, the arrival of comics studies as a full-fledged discipline that today and tomorrow excavates, examines, discusses, and analyzes all aspects that make up the resplendent planetary republic of comics. This collection of scholarly essays is a testament to the fact that comic book studies have come into their own as an academic discipline, simply and powerfully moving comic studies forward with their critical excavations and theoretical formulas based on the common-sense understanding that comics add to the world as unique transformative cultural phenomena.

Manga's First Century Andrea Horbinski, 2025-10-28 A comprehensive English language history of a beloved medium, Manga's First Century tells the story of the artists and fans who built a cultural juggernaut. Manga is the world's most popular style of comics. How did manga and anime, moving manga, become ubiquitous? Manga's First Century delves into the history and finds surprising answers. In fact, manga has always been a global phenomenon. Countering essentialist myths of manga's emergence from the deepest wells of Japanese art, author Andrea Horbinski shows it was born in the early 1900s as a hybrid form that crossed single-panel satirical cartoons popular in Europe and America with the Edo period's artistic legacy. As a medium, manga initially focused on political commentary, expanding to include social satire, children's comics, and proletarian

art in the 1920s and 1930s Manga's evolution into a medium embracing complex long form storytelling was likewise driven by creators and fans pushing publishers to accept new radical expansions in manga's artistic and narrative practices In the 1970s innovative creators and fans empowered a new breed of fan generated comics d jinshi and established robust audiences of adult female and queer manga readers while nurturing generations of amateur and professional creators who continue to enrich and renew manga today [Mechademia 10](#) Frenchy Lunning,2015-12-20 Mechademia 10 revolves around a maelstrom of events the devastation of 3 11 the earthquake tsunami and nuclear reactor crises and the ongoing environmental disasters that have recently overtaken Japan Because anime and manga have long proposed and illustrated alternative worlds some created after catastrophes it is fitting that this volume should consider this propensity for world renewal Individual essays range widely from a poetic and personal reflection on the ritual of t r nagashi the lighting of floating paper lanterns that has traditionally commemorated souls lost in great public cataclysms such as war to a study of the various counterfactual histories written about the historical figure of Toyotomi Hideyoshi a former peasant farmer who became a military dictator of feudal Japan The book also includes an original manga Nanohana from the popular artist Hagio Moto who is quoted as saying I want to think together with everyone else about Fukushima and Chernobyl about the future of the Earth about the future of humankind and to keep thinking moving forward **Serial Pinboarding in Contemporary Television** Anne Ganzert,2020-02-07 This book provides an in depth study of pinboards in contemporary television series and develops the interdisciplinary and innovative concept of Serial Pinboarding Pinboards are character attributes they visualize thought processes are used for conspiracy theories as murder walls or for complex cases in any genre They significantly condition and are conditioned by seriality This book discusses how the pinboards in Castle Homeland Flash Forward and Heroes connect evidence knowledge and seriality and how through transmediality and fan practices an age of pinboarding has formed Serial Pinboarding in Contemporary Television will appeal to TV enthusiasts professionals and researchers and students of TV and production studies fan studies media studies and art theory
