Dynamics of Change in the Persian Gulf Political Economy, War and Revolution Anoushiravan Ehteshami,2013 The Persian Gulf has come to represent one of the most strategically significant waterways of the world In terms of geography geopolitics resources global political economy and regional influence the Gulf is perhaps home to the world s most significant group of countries Focusing on the complexities of the interplay between domestic level changes and region wide interactions this book presents the reader with the first comprehensive survey of the dynamics of change in this crucial area Systemic oriented in its approach the impact of war and revolution on the countries of the sub region is discussed and the ways in which these factors have shaped the security dilemmas and responses of the Gulf States is also explored The role of oil is examined in terms of the impact of its income on these states and societies and the manner in which oil has shaped the integration of these states into the global system Oil has shrunk developmental time in these countries and has accelerated generational shift At the same time it has created the dialectical relationship which now characterizes the difficult balance between prosperity and instability which is at the heart of the sub region Casting new light on the workings of a strategically significant part of the international system this book will be an essential resource for students and scholars of international relations international security and Middle Eastern politics

Capitalism: An Unsustainable Future? Malcolm Sawyer,Jonathan Michie,2022-03-30 The four decades of neoliberalism globalisation and financialisation have produced crises financial and pandemic and rising inequality The climate emergency threatens the future of the planet This book explores many dimensions of the background to these crises There is the development of policy agendas to address the climate emergency The rise in inequality is studied in terms of impacts of financialisation and the relationships between growth and inequality The record of the neoliberal experiment in the USA is critically examined The roles of financial institutions including public banks and micro finance are explored as is the need for improved financial oversight in the Economic and Monetary Union The growth of global value chains has been a major aspect of globalisation and the question is examined of whether such chains provide a ladder for development Globalisation has also featured trade imbalances and large capital flows and their causes and effects are examined with respect to China and South Africa respectively This volume will be of great value to students scholars and professionals interested in political economy economic thought climate change sustainability and business studies The chapters in this book were originally published as a special issue of the journal *International Review of Applied Economics*
