

Edition 2008B

1 General information and technical data

Scope, service manual

General

This manual describes the service procedures for ATLET stand-on stackers in the A-Ergo series. Use the manual for quick and correct service of respective truck models.

The manual describes models manufactured from and including the introduction of A-Ergo at the end of 2002.

You may find contradictions in the manual compared with the models supplied due to optional designs, upgrades and the like.

Warning!

If the truck is rebuilt after delivery or supplemented in such a manner that safety may be affected, ATLET AB or its authorised representative should be contacted.

The electrical system must never be rewired in any form after delivery without written authorisation from Atlet AB, since this may change the measured and applicable EMC.

The content of this service manual is protected by copyright law and may not be copied, fully or in part, without written permission. The material has undergone careful examination with regard to correctness. Subject to alteration. In the event of inconsistent information in the Swedish and translated editions, it is the Swedish edition that applies.

Modifications and updates will be distributed via ATLET AB Service Manual Change.

Scope of the A-Ergo model

The stand-on stacker trucks in the A-Ergo series are available in a number of different variants with mast system, straddle lift, extendable stabilisers and telescopic forks (ATF).
