

6 mark questions

- You will get two 6 mark questions on Water and Carbon, Coasts, Global Systems and Changing Places. There will be one 6 mark question on each of Hazards and Urban Environments.
- The data in many cases will be new to you – this means you will have to apply your knowledge, and the data that is used may not be explicitly on the specification.
- You should try to identify links between data sets and patterns relating to geographical concepts.
- Don't forget to quote and manipulate data as evidence for the points you make!
- Some questions will ask you to 'assess' rather than analyse the data. Take note – these questions require evaluation rather than analysis!
