Learning to Teach Science in the Secondary School Lindsay Hetherington, Luke Graham, Darren Moore, 2024-06-27
Learning to Teach Science in the Secondary School is an indispensable guide to the process practice and reality of learning to teach science in a busy secondary school. Written by experienced teachers and expert academics, it explores core debates and topics in science education, providing practical and insightful advice with research and theory to support your development as a teacher. This fully updated fifth edition focuses on the knowledge and skills you will need to develop your science teaching, including key approaches to teaching physics, chemistry, and biology, lesson and curriculum planning, and assessment. There are also new chapters on Safety in science teaching, The science of learning for teaching science, Mathematics and learning science, Science for social justice, Inclusive and adaptive science teaching, Making use of research, practical guidance for science teachers. Written with university and school-based initial teacher education in mind and including learning objectives, lists of useful resources, and specially designed tasks in every chapter, *Learning to Teach Science in the Secondary School* offers all student and early career teachers accessible and comprehensive guidance to support the journey of becoming an effective science teacher.

Learning to Teach in the Secondary School Susan Capel, Marilyn Leask, Sarah Younie, Elizabeth Hidson, Julia Lawrence, 2022-07-29
The market-leading text for beginning teachers on all undergraduate, postgraduate, and school-based routes to QTS, this is an essential introduction to the key skills and knowledge needed to become a successful teacher. Offering advice on all aspects of teaching and learning, this ninth edition has been thoroughly updated to reflect changes in the field and covers key new topics, including the science of learning, online pedagogies, and working with your mentor. There are also expanded units on diversity and inclusion, and teacher wellbeing. The text includes a wealth of examples and tasks to support you in successfully applying theory to practice and in critically reflecting on and analysing your practice to maximise pupil learning. The wide range of pedagogical features supports both school and university-based work up to Masters level. Written by experts in the field, the 41 concise units are underpinned by evidence-informed practice and focus on what you need to know to thrive in the classroom, including lesson planning, curriculum managing, behaviour, online lessons, and digital resources, effective communication with pupils, how pupils learn, assessment, marking, and feedback, diversity and inclusion, special educational needs and disabilities (SEND), managing stress, workload, and time, applying for jobs, developing as a professional, and networking. The book is extended and enhanced through a companion website that includes animated explainer videos to introduce and summarise key topics, a selection of downloadable and editable tables and figures from the book so that the most practical elements can be taken out of study and into practice, additional material and interactive features to support selected units, such as focus questions for lesson observations and flashcards to help analyse student behaviour. Bonus content includes Starting to Teach chapters and a mapping document supporting you to make links between the ninth edition chapters and key teaching standards. Supported

by the subject specific titles in the Learning to Teach Subjects in the Secondary School and A Practical Guide to Teaching Subjects in the Secondary School Series it is an essential purchase for every aspiring secondary school teacher
