Learning to Teach Science in the Secondary School is an indispensable guide to the process practice and reality of learning to teach science in a busy secondary school. Written by experienced teachers and expert academics, it explores core debates and topics in science education, providing practical and insightful advice with research and theory to support your development as a teacher. This fully updated fifth edition focuses on the knowledge and skills you will need to develop your science teaching, including key approaches to teaching physics, chemistry, and biology, lesson and curriculum planning, and assessment. There are also new chapters on Safety in science teaching, The science of learning for teaching science, Mathematics and learning science, Science for social justice, Inclusive and adaptive science teaching, Making use of research, practical guidance for science teachers. Written with university and school-based initial teacher education in mind and including learning objectives, lists of useful resources, and specially designed tasks in every chapter, Learning to Teach Science in the Secondary School offers all student and early career teachers accessible and comprehensive guidance to support the journey of becoming an effective science teacher.

OECD Reviews of Evaluation and Assessment in Education: Albania Maghnouj Soumaya, Fordham Elizabeth, Guthrie Caitlyn, Henderson Kirsteen, Trujillo Daniel, 2020-05-07
This review, developed in co-operation with UNICEF, provides Albania with recommendations to help strengthen its evaluation and assessment system to focus on support for student learning. It will be of interest to Albania as well as other countries looking to make more effective use of their evaluation and assessment system to improve quality and equity and result in better outcomes for all students.

The What, Why and How of Assessment , Using Film and Media in the Language Classroom Carmen Herrero, Isabelle Vanderschelden, 2019-07-11
This book demonstrates the positive impact of using film and audiovisual material in the language classroom. The chapters are evidence-based and address different levels and contexts of learning around the world. They demonstrate the benefits of using moving images and films to develop intercultural awareness and promote multilingualism and suggest Audiovisual Translation (AVT) activities and projects to enhance language learning. The book will be a valuable continuing professional development resource for language teachers and those involved in curriculum development, as well as bringing the latest research, theory, and pedagogical techniques to teacher training courses.
