William Allison Sweeney, 2020-09-28 The march of civilization is attended by strange influences Providence which directs the advancement of mankind moves in such mysterious ways that none can sense its design or reason out its import Frequently the forces of evil are turned to account in defeating their own objects Great tragedies cruel wars cataclysms of woe have acted as enlightening and refining agents Out of the famines of the past came experiences which inculcated the thrift and forehandedness of today Out of man's sufferings have come knowledge and fortitude Out of pain and tribulation the attribute of sympathy the first spiritual manifestation instrumental in elevating the human above the beast Things worth while are never obtained without payment of some kind Individual shocks stir the individual heart and conscience Great world shocks are necessary to stir the world conscience and heart to start those movements to right the wrongs in the world So long as peace reigned commerce was uninterrupted and the acquisition of wealth was not obstructed men cared little for the intrigues and ambitions of royalty If they sensed them at all they lulled themselves into a feeling of security through the belief that progress had attained too far civilization had secured too strong a hold and democracy was too firmly rooted for any ordinary menace to be considered So insidious and far reaching had become the inculcation of false philosophies summed up in the general term Kultur that the subjects of the autocratic ridden empires believed they were being guided by benign influences Many enlightened men at least it seems they must have been enlightened in Germany and Austria men who possessed liberated intellects and were not in the pay of the Kulturists professed to believe that despotism in the modern world could not be other than benevolent The satanic hand was concealed in the soft glove the cloven hoof artistically fitted into the military boot the tail carefully tucked inside the uniform or dress suit fiendish eyes were taught to smile and gleam in sympathy and humor or were masked behind the heavy lenses of professorial dignity the serpent's hiss was trained to song or drowned in crashing chords and given to the world as a sublime harmony Suddenly the world awoke The wooing harmony had changed to a blast of war the conductor's baton had become a bayonet the soft wind instrument barked the rifle's tone its notes were bullets that hissed and screamed tinkling cymbals sounded the wild blare of carnage and sweet throated horns of silver and brass bellowed the cannon's deadly roar *The American Catalogue of Books*, 1856 *The Musical Record*, 1882 **Catalogue of Title Entries of Books and Other Articles**, 1898 **U.S. Government Books**, 1985

Symbolism Florian Klaeger, Klaus Stierstorfer, Marlena Tronicke, 2022-10-03 Special Focus Omission edited by Patrick Gill Throughout literary history and in many cultures we encounter an astute use of conspicuous absences to conjure an imagined reality into a recipient's mind The term omission as used in the present study then demarcates a common artistic phenomenon a silence blank or absence introduced against the recipient's generic or experiential expectations but which

nonetheless frequently encapsulates the tenor of the work as a whole Such omissions can be employed for their affective potential when emotions represented or evoked by the text are deemed to be beyond words They can be employed to raise epistemological questions as when an omission marks the limits of what can be known Ethical questions can also be approached by means of omissions as when a character's voice is omitted for instance Finally omission always carries within it the potential to reflect on the media and genres on which it is brought to bear as its efficacy depends on the recipient's generic expectations omission is frequently characterized by a high degree of meta discursiveness This volume investigates the various strategies with which the phenomenon of omission is employed across a range of textual forms and in different cultures to conclusively argue for its status as a highly effective and near universal form of artistic signification

Britain, Etc ,1856 Australian Books and Authors in the American Marketplace 1840s-1940s David Carter,Roger Osborne,2018-07-02 Australian Books and Authors in the American Marketplace 1840s 1940s explores how Australian writers and their works were present in the United States before the mid twentieth century to a much greater degree than previously acknowledged Drawing on fresh archival research and combining the approaches of literary criticism print culture studies and book history David Carter and Roger Osborne demonstrate that Australian writing was transnational long before the contemporary period In mapping Australian literature s connections to British and US markets their research challenges established understandings of national imperial and world literatures Carter and Osborne examine how Australian authors editors and publishers engaged productively with their American counterparts and how American readers and reviewers responded to Australian works They consider the role played by British publishers and agents in taking Australian writing to America and how the international circulation of new literary genres created new opportunities for novelists to move between markets Some of these writers such as Christina Stead and Patrick White remain household names others who once enjoyed international fame such as Dale Collins and Alice Grant Rosman have been largely forgotten The story of their books in America reveals how culture commerce and copyright law interacted to create both opportunities and obstacles for Australian writers
