Continuing the Journey to Reposition Culture and Cultural Context in Evaluation Theory and Practice Stafford Hood, Rodney Hopson, Henry Frierson, 2014-12-01 Racial ethnic linguistic and cultural diversity has become of global importance in places where many never would have imagined Increasing diversity in the U.S. Europe Africa New Zealand and Asia strongly suggests that a homogeneity based focus is rapidly becoming an historical artifact Therefore culturally responsive evaluation CRE should no longer be viewed as a luxury or an option in our work as evaluators The continued amplification of racial ethnic linguistic and cultural diversity and awareness among the populations of the U.S. and other western nations insists that social science researchers and evaluators inextricably engage culturally responsive approaches in their work It is unacceptable for most mainstream university evaluation programs philanthropic agencies training institutes sponsored by federal agencies professional associations and other entities to promote professional evaluation practices that do not attend to CRE Our global demographics are a reality that can be appropriately described and studied within the context of complexity theory and theory of change e.g. Stewart 1991 Battram 1999 And this perspective requires a distinct shift from simple linear cause effect models and reductionist thinking to include more holistic and culturally responsive approaches The development of policy that is meaningfully responsive to the needs of traditionally

disenfranchised stakeholders and that also optimizes the use of limited resources human natural and financial is an extremely complex process Fortunately we are presently witnessing developments in methods instruments and statistical techniques that are mixed methods in their paradigm designs and likely to be more effective in informing policymaking and decision making Culturally responsive evaluation is one such phenomenon that positions itself to be relevant in the context of dynamic international and national settings where policy and program decisions take place One example of a response to address this dynamic and need is the newly established Center for Culturally Responsive Evaluation and Assessment CREA in the College of Education at the University of Illinois at Urbana Champaign CREA is an outgrowth of the collective work and commitments of a global community of scholars and practitioners who have contributed chapters to this edited volume It is an international and interdisciplinary evaluation center that is grounded in the need for designing and conducting evaluations and assessments that embody cognitive cultural and interdisciplinary diversity so as to be actively responsive to culturally diverse communities and their aspirations The Center s purpose is to address questions issues theories and practices related to CRE and culturally responsive educational assessment Therefore CREA can serve as a vehicle for our continuing discourse on culture and cultural context in evaluation and also as a point of dissemination for not only the work that is included in this edited volume but for the subsequent work it will encourage

The Era of Industrial Growth and Foreign Expansion Kathy Sammis,2000 Reproducible student activities cover colonial experiences including interaction with Native Americans family and social life the beginnings of slavery and the seeds democracy **Our Common Journey** National Research Council,Policy and Global Affairs,Policy Division,Board on Sustainable Development,1999-11-09 World human population is expected to reach upwards of 9 billion by 2050 and then level off over the next half century How can the transition to a stabilizing population also be a transition to sustainability How can science and technology help to ensure that human needs are met while the planet s environment is nurtured and restored Our Common Journey examines these momentous questions to draw strategic connections between scientific research technological development and societies efforts to achieve environmentally sustainable improvements in human well being The book argues that societies should approach sustainable development not as a destination but as an ongoing adaptive learning process Speaking to the next two generations it proposes a strategy for using scientific and technical knowledge to better inform future action in the areas of fertility reduction urban systems agricultural production energy and materials use ecosystem restoration and biodiversity conservation and suggests an approach for building a new research agenda for sustainability science Our Common Journey documents large scale historical currents of social and environmental change and reviews methods for what if analysis of possible future development pathways and their implications for sustainability The book also identifies the greatest threats to sustainability in areas such as human settlements agriculture industry and energy and explores the most promising opportunities for circumventing or mitigating these threats It goes on to discuss what indicators of change from children s

Joseph,2022-11-03 The gap between the abundance of American higher education talent and the immense foreign demand for it is the great chasm in global education It is a gulf of lost opportunities It is also a space of great economic potential This book describes the great chasm examines factors underlying it and suggests ways to bridge the gap to realize this potential The abundance of talent stems from the slackening growth of the U S higher education sector in the New Millennium Contributing to the slowdown are flat enrollments adverse demographic trends U S visa restrictions and intensifying competition The immense foreign demand has

been fueled by the secular expansion of the global economy It has been shaped by the pressing need in emerging markets to develop an educated workforce The great chasm creates an opportunity for American academic institutions to extend their global reach Bridging the gap however is not an easy feat for most U S colleges and universities It is complicated by an institutional culture that is averse to commercialization an organizational structure that is operationally slow and a governance system that often leads to indecision conflict and paralysis Bridging the gap requires fundamental changes in the culture organization and governance of traditional U S academic institutions These changes will pave the way for international expansion which could enhance the financial well being of these institutions the social well being of less developed nations and the critical role that America plays globally in knowledge creation the dissemination of ideas and the pursuit of the truth
