Namorato,Charles Steven Palmer,2006-01 *Inventing the "American Way"* Wendy L. Wall,2009-09-03 In the wake of World War II Americans developed an unusually deep and all encompassing national unity as postwar affluence and the Cold War combined to naturally produce a remarkable level of agreement about the nation s core values Or so the story has long been told Inventing the American Way challenges this vision of inevitable consensus Americans as Wendy Wall argues in this innovative

book were united not so much by identical beliefs as by a shared conviction that a distinctive American Way existed and that the affirmation of such common ground was essential to the future of the nation. Moreover, the roots of consensus politics lie not in the Cold War era but in the turbulent decade that preceded U.S. entry into World War II. The social and economic chaos of the Depression years alarmed a diverse array of groups, as did the rise of two alien ideologies: fascism and communism. In this context, Americans of divergent backgrounds and beliefs seized on the notion of a unifying American Way and sought to convince their fellow citizens of its merits. Wall traces the competing efforts of business groups, politicians, leftist intellectuals, interfaith proponents, civil rights activists, and many others over nearly three decades to shape public understandings of the American Way. Along the way, she explores the politics behind cultural productions ranging from *The Adventures of Superman* to the Freedom Train that circled the nation in the late 1940s. She highlights the intense debate that erupted over the term democracy after World War II and identifies the origins of phrases such as free enterprise and the Judeo-Christian tradition that remain central to American political life. By uncovering the culture wars of the mid-twentieth century, this book sheds new light on a period that proved pivotal for American national identity and that remains the unspoken backdrop for debates over multiculturalism, national unity, and public values today. Postwar American Fiction and the Rise of Modern

Conservatism Bryan M. Santin, 2021-03-11 Shows how shifting views on race caused the American conservative movement to surrender highbrow fiction to progressive liberals. An American Health Dilemma W. Michael Byrd, Linda A.

Clayton, 2001-12-21 First published in 2002, *An American Health Dilemma* is the story of medicine in the United States from the perspective of people who were consistently officially mistreated, abused, or neglected by the Western medical tradition and the U.S. health care system. It is also the compelling story of African Americans fighting to participate fully in the health care professions in the face of racism and the increased power of health corporations and HMOs. This tour de force of research on the relationship between race, medicine, and health care in the United States is an extraordinary achievement by two of the leading lights in the field of public health. Ten years out, it is finally updated with a new third volume taking the story up to the present and beyond, remaining the premiere and only reference on black public health and the history of African American medicine on the market today. No one who is concerned with American race relations, with access to and quality of health care, or with justice and equality for humankind can afford to miss this powerful resource. **Sick Schools**

David V. Anderson, 2020-01-10 Who's afraid of for-profit education? Those who work in non-profit or government-owned and operated schools. Many parents and other stakeholders have been made fearful by this education establishment. What's more important to humans: nutrition or education? Nutrition is more important because it is the prerequisite for other human activities, including education. What organizations provide food, and who pays for the food? Food is provided by for-profit farmers, for-profit processors, for-profit wholesalers, and for-profit retailers. Most food is purchased with the consumer's own money, but a significant amount is purchased by low-income individuals using food stamps. Why can't education be provided
