Congress, 2000 *Jewish Community of Solano County* Rachel Raskin-Zrihen, Rachel Rae Moncharsh-Lessem and Shoshana Deutscher-Nurik, 2014 This book contains images and stories of some of the Jews who have impacted Solano County It is not a record of every Jew to pass this way some of whom may have come intending to shed their Jewish identity by changing their names or converting Wonderful stories emerged about extraordinary people who made their marks here with few suspecting their Jewish roots yet they were traceable often because in death they chose to reclaim their heritage Others came to live as Jews and built an enduring community The story within these pages travels from the Old World to the edge of Gold Country where there lives a tenacious though often invisible Jewish community *The Oxford Handbook of Virtue* Nancy E. Snow, 2018 The late twentieth and early twenty first centuries have seen a renaissance in the study of virtue a topic that has prevailed in philosophical work since the time of Aristotle Several major developments have conspired to mark this new age Foremost among them some argue is the birth of virtue ethics an approach to ethics that focuses on virtue in place of consequentialism the view that normative properties

depend only on consequences or deontology the study of what we have a moral duty to do The emergence of new virtue theories also marks this new wave of work on virtue Put simply these are theories about what virtue is and they include Kantian and utilitarian virtue theories Concurrently virtue ethics is being applied to other fields where it hasn't been used before including bioethics and education In addition to these developments the study of virtue in epistemological theories has become increasingly widespread to the point that it has spawned a subfield known as virtue epistemology This volume therefore provides a representative overview of philosophical work on virtue It is divided into seven parts conceptualizations of virtue historical and religious accounts contemporary virtue ethics and theories of virtue central concepts and issues critical examinations applied virtue ethics and virtue epistemology Forty two chapters by distinguished scholars offer insights and directions for further research In addition to philosophy authors also deal with virtues in non western philosophical traditions religion and psychological perspectives on virtue
